COS-FIELD ISA

Program Review

Submitted By:

Samantha Worthington, FIELD Director

College of the Siskiyous

800 College Avenue

Weed, CA 96094

January 7, 2021

1. Program Description:

Since 2012, the College of the Siskiyous has maintained a partnership with Farmworker Institute for Education and Leadership Development (FIELD) through an Instructional Service Agreement (ISA). The agreement entered is that FIELD provides instructional and other services for non-credit English as a Second Language (ESL) courses and potentially other non-credit courses and COS provides administrative and academic supervision of instruction carried out by FIELD employees, record keeping, and other administrative services pertaining to course offerings. The regulations pertaining to ISAs are contained in California Education Code sections 78015, 84752 and California Code of Regulations, title 5, sections 51006, 53410, 55002, 55003, 55005, 55300, 58050, 58051(c)–(g), 58051.5, 58055, 58056, 58058(b), 58102-58106, 58108. In 2017, a College position was created and filled — FIELD Director — to oversee the ISA.

COS faculty develop curriculum for the courses. The College collects apportionment on all the classes offered by FIELD and reimburses FIELD throughout the year based on a mutually agreed upon rate per hour of instruction.

Over the last four years classes were offered in various locations including Kern, Monterey, and Los Angeles counties. Classes are brought to students by holding classrooms in neighborhood community centers, schools, and churches. These ESL courses serve as an important pathway for FIELD as many of its students continue on to its high school (mentioned below) to pursue high school diplomas. The FIELD ISA, bolsters and broadens the College's ability to serve underserved communities.The agreement is renewed annually. In April 2017, the Director role was created to ensure increased oversight of the ISA overall after the accreditation team in 2016 cited some concerns regarding oversight. The Director — a College employee — serves as the liaison between the College and FIELD and does not oversee a specific academic program, rather oversees programming related to the FIELD relationship.

Founded by Cesar Chavez in 1978, FIELD is a nonprofit organization that promotes economic and social prosperity for underserved communities through education, workforce training, and economic development. FIELD delivers its classes to economically disadvantaged adults over the age of 18 who are primarily Latino. Non-native English speakers learn the skills needed to improve and integrate their basic reading, writing, listening and speaking. Grammar, vocabulary and culturally relevant experiential learning are encouraged and explored. In the last four years, approximately 99% of FIELD students were Hispanic, with the next highest category being “Two or More Races.” Approximately 70% were female, 30% male (nearly zero number of “decline to state” or unknown). Across all participants, 99% had a goal of “Improve basic English, Reading, or Math”, a little less than 1% had a goal of “Acquire job skills”, and a trivial number of participants (single digits) selected a range of other responses.

FIELD operates programs at 25 sites throughout 9 different counties in California, at no cost to students. In addition to ESL classes, FIELD has a a fully accredited charter high school for adults, known as Escuela Popular Instituto Campesino de César Chavez (EPIC) and a Conservation Corps known as Cesar Chavez Environmental Corps (CCEC). Approximately 225 of the College’s ESL students enrolled in EPIC High School. FIELD’s newest addition to EPIC is its Career Technical Education (CTE) program. CTE focuses on skills training for rural economic sectors that show promise for growth. This includes training in solar photovoltaic system or renewable solar energy installation, renewable materials management, wildfire prevention and suppression, early childhood education and agriculture. FIELD’s current strategic objective is to enable 40,000 FIELD students to become self-sufficient within California by exercising its knowhow in building relationships with target markets no later than June 2021. Since 2018, the Director, in collaboration with the College’s Non-Credit Director has worked with FIELD to develop and launch non-credit CTE courses including business and fire classes. In spring 2020, the first of these CTE courses were offered in Kern County with a 4-course Small Business Startup, Marketing and Media certificate and in fall 2020, a 3-course Firefighting certificated was offered to FIELD students.

The ISA is in regards to the following non-credit courses listed below. Credit courses are also permitted under the ISA, but are not currently offered. Up until March 2020, all courses were face-to-face. Due to COVID, classes were transitioned to hybrid and in the fall of 2020 classes started being offered online via Zoom and Canvas. These approximate 6-week courses are taught off-campus year-round at site locations in California at various intervals. In the past

year, there were approximately 80 courses offered in each 6-week period for a total of approximately 450 courses annually. The College's policy on open enrollment is published in its catalog and class schedules and courses are advertised to the public. Students can earn a Certificate of Completion by completing ESL Level 1, ESL Level 2, and ESL Level 3. The curriculum is up-to-date. In 2018 to change the designation from ENGL to ESL and in the summer of 2020 DE addenda (1 for each level) were submitted for approval to enable online classes in January 2021.

As stated in the Course Catalog, "The ESL program provides communicative English skills in speaking, listening, reading, and writing to speakers of other languages. This sequence of courses is designed to take students from survival level English skills to high intermediate English proficiency, to prepare students for a variety of vocational or career fields and/or for transition into credit-bearing college courses. As a Noncredit program, the ESL Certificate of Completion is designed to meet the needs of diverse second language learners at their own pace." These classes prepare students for success in the workforce and/or for entry level credit-bearing courses, career and technical certificate programs, and transfer programs. All courses offered by FIELD are non-credit, open entry-open exit courses.

ESL Classes Offered from 2016-2020:

ESL 0561: ESL Level 1 (0 units, 90 hours)

ESL 0562: ESL Level 2 (0 units, 90 hours)

ESL 0563: ESL Level 3 (0 units, 90 hours)

Certificate of Completion Requirements: Complete ESL Level 1, 2, and 3 (270 total certificate hours)

The ESL Program Outcomes are for students to be able to:

• Recognize and utilize basic structures and forms of English language in speaking and writing.

• Compose grammatically correct sentences, using correct verb forms of both regular and irregular verbs and modals.

• Recognize common etiquette forms and idiomatic expressions and utilize appropriate language responses to questions and in common social

contexts.

• Demonstrate cultural awareness by explaining or comparing variouscultural perspectives.

• Discuss and answer questions to a short reading selection.

• Employ appropriate vocabulary to life-skill topics, in real-life situations, and in obtaining employment; and apply effective workplace

communicationskills.

• Demonstrate progress in pronunciation skills.

CTE Classes Offered in 2020:

Small Business Startup, Marketing and Media Courses: *This 4-class sequence was offered only once from January-June 2020.* 18 out of 19 students earned the certificate.

BA 505: Strategic Thinking, Decision Making and problem solving (0 units, 32-36 hours)

WORK 0512: Small Business Marketing, Sales & Social Media- Graphic Design (0 units, 32-36 hours)

CSCI 050: Beginning Computer Skills (0 units, 32-36 hours)

BA 504: Communication in the Workplace (0 units, 32-36 hours)

Certificate of Completion Requirements: Complete all 4 Small Business Courses (128 hours)

Firefighting I Certificate Courses:

*This 3-class sequence -- offered only once) started in October 2020 and will end in January 2021. (*Certificate data pending as final Fire class class offered in January 2021 was in session when this report was submitted).

WORK532 S-190 Intro/Wildland Fire Behavior (0 units, 8 hours)

WORK533 Confined Space Awareness (0 units, 9 hours)

WORK536 Emergency Medical Responder (0 units, 54 hours)

Certificate of Completion Requirements: Complete all 3 Fire Courses (71 hours)

*The Director collaborated with the College's Emergency Medical Services faculty to ensure students will receive industry certificates in addition to College certificate.

2. External Factors with Significant Impact:

a) Budgetary Constraints & Lack of Technology:

One issue instructors have relayed through SLO surveys is a lack of technology in some of FIELD's classrooms. While the Director has noted this issue, it is a difficult one to tackle as many of FIELD's sites don't have internet access, are also used by other entities, and some locations periodically change throughout the year. However, students can access Mango – an online language-learning program provided by the College's library – from anywhere on personal devices. In collaboration with COS' Librarian, the Director is currently considering an alternative online language acquisition program, which provides far more practice activities. Also, starting in

the 2019-2020 ISA, the Director included language stipulating minimum resources required in classrooms. “FIELD will ensure classrooms are sufficiently equipped with learning resources throughout duration of classes. Minimum requirements are: a standard-sized whiteboard or chalk board, one computer, internet (when possible), a projector, and Mango access. Students will have all necessary resources for in-class learning including materials to write on (paper or mini-whiteboard) and handouts.” The Director continues to consider how to bring more technology to FIELD classrooms, however the silver lining of the pandemic was FIELD’s transition to classes conducted via Zoom, which prompted FIELD to obtain Internet hot spots for its students. In summer 2020, DE addenda were submitted to enable FIELD to offer ESL classes online and they should be launched in January 2021. Once the pandemic ends, FIELD plans to have student learning centers to support online learners and to address technology gaps, which is explained in further detail in section 9 of this report.

b) Permission From Other Institutions: Every year the College must obtain permission to operate in each college district in which FIELD operates as required by Title 5 requirements, which creates an unpredictable situation. Over the last 4 years, some colleges have understandably declined permissions due to the need to build their own ESL programs. In the last 4 years permissions from various districts have decreased to where currently the only college granting permission is Bakersfield College. Past permissions have included Hartnell College, College of the Sequoias, Cerro Coso Community College, Antelope Valley College, and Porterville College.

c) Teaching 3 ESL Levels Concurrently: FIELD instructors report in SLO surveys that it is challenging to teach three concurrent ESL levels (ESL 1, 2, & 3) due to the students’ varying English speaking abilities and academic skills. The Director initially began addressing the issue by providing FIELD’s site coordinators some online articles, videos, and a webinar regarding multilevel classrooms to provide as support for instructors. The Director has orchestrated two CALPRO (California Adult Literacy Professional Development Project) trainings on teaching in multilevel classrooms as well as an ESL workshop. In addition, FIELD is exploring potential development of online training for new instructors. With the imminent launche of online ESL classes (likely mid-January 2021), the issue of teaching concurrent levels will be mitigated through online classes though it will remain as an issue for face-to-face classes and for which the Director will remain mindful.

d) Student Education Levels: As FIELD recruits low-skilled workers — predominantly farmworkers — for its ESL classes, low-education levels and literacy rates are in issue within the ESL student populations. Also, many students either lack technology know-how or sufficient technology. This poses a unique set of challenges to ESL instructors, challenges that should always be factored in when developing new efforts. For example, for online classes the Director recommends FIELD offer a pre-online training to onboard students to ensure have they basic computer knowledge necessary to navigate the course.

e) Instructor Turnover: Due to all three of the aforementioned factors, instructor turnover is problematic. Due to budgetary constraints, FIELD pays its instructors less than the average Adult Education hourly wage so the pay is not competitive. Also, instructors are generally expected to work year round with significantly less breaks than a teacher or college instructor. Many instructors also work split shifts requiring them to work both in the morning and the evening, 5 days a week, almost year round. The Director has consistently advocated for more instructor support and in the last two years FIELD has had an ESL coach to support instructors. The Director has also discussed with staff the possibility of more breaks, however FIELD has yet to make any changes. This is a significant matter as many dedicated instructors have reported to the Director that though they love their job it's not sustainable to continue to work with so few breaks in the schedule. The Director will continue working to support instructors to improve instructor retention. While FIELD's mission is noble, a mission alone doesn't sustain instructors. Several FIELD staff members have expressed frustration with their perception that FIELD's mission doesn't match its treatment of its own staff.

3. Progress on Outcome Assessment:

a) Student Learning Outcome Surveys: In summer 2017, the Director created a protocol and system to collect SLOs as SLOs were not previously collected since the 2012 commencement of the ISA. In coordination with FIELD staff, the Director collects SLOs at the end of each 6-week session, which run year-round. Currently data is collected via SurveyMonkey and stored digitally. The data helps inform the Director how to better support ESL students and FIELD instructors. In the coming year, the Director anticipates utilizing eLumen for reporting of SLOs depending on when the College implements its plan (potentially 2021).

CASAS Testing: The Director also collects the annual results of testing FIELD conducts in all its ESL classes called the Comprehensive Adult Student Assessment System (CASAS), which provides testing of basic and academic skills for youth and adults and curriculum tools to design instruction. Every new ESL student is given an appraisal test, and then a Pre-Test based on that appraisal. All students who have taken a pre-test and who have attended a minimum of 40 hours of instruction then take the post-test at the end of that session. This is repeated for every session. Once a student takes the initial pre-test, he or she then only takes the end of session post test from that time on regardless of how may subsequent sessions the student attends. Below is the CASAS data for the last 4 years.

			CASAS ESL Scores by %				
	Year	Beginning Literacy	Beginning Low	Beginning High	Intermediate Low	Intermediate High	Low Advanced
CA Goal	2019-2020	60	59	56	49	45	27
CA Average	2019-2020	46.6	50.7	49.7	40.6	41.3	21
FIELD	2019-2020	43.2	74.3	60	45.2	45.8	18.2
FIELD	2018-2019	62.9	72.7	61.6	47.3	39.1	21.7
FIELD	2017-2018	49.6	56.7	47.2	39.9	40.1	22.9
FIELD	2016-2017	46.2	51.2	49.5	41.5	42	31.7

b) Program/Course or Instructional Improvements Based on Assessment:
The Director works closely with FIELD staff to ensure quality non-credit class offerings and sufficient oversight as all classes are provided offsite in central and southern California.

New Textbook: In 2018, FIELD implemented a new ESL textbook series, *Ventures*, based on recommendations from the CALPRO trainer who led workshops on multi-level teaching. *Ventures* is a six-level, standards based, integrated skills series for Adult Education, aligned to WIOA, NRS, English Language Proficiency, and College and Career Readiness standards. The textbook series provides an array or resources for both instructors and students: Two-page lessons are designed for an hour of classroom instruction. Culture notes and speaking, reading, and writing tips enrich and support exercises. Review units include sections focusing on pronunciation. Each student's book includes an audio CD, which contains 10 topical units composed of six lessons each.

Minimum Classroom Requirements: Starting in the 2019-2020 ISA, the Director inserted language stipulating the minimum resources required in classrooms. “FIELD will ensure classrooms are sufficiently equipped

with learning resources throughout duration of classes. Minimum requirements are: a standard-sized whiteboard or chalk board, one computer, internet (when possible), a projector, and Mango access. Students will have all necessary resources for in-class learning including materials to write on (paper or mini-whiteboard) and handouts."

c) Program Assessment Plan for Next 4 Years: The Director will continue to have instructors report SLOs after each session, which will continue to be collected and stored digitally. The Director will work with College staff to ensure SLOs are integrated into eLumen once a system is put in place. Annual CASAS testing data will continue to be collected. Once online classes are launched fully online in 2021, the Director will create and implement measurements to understand student success in face-to-face versus online classes and collaborate with FIELD staff to ensure academic quality in both face-to-face and online classes.

4. Institutional Program Effectiveness Indicators:

a) Course Completion Rates: Course completion rates in this section pertain to ESL and are measured by attendance of a minimum of 90 hours.

Academic Year	Students with 90+ Attendance Hours (approximate)
2019-2020	751 (45% of students)
ESL Level 1	244 (29%)
ESL Level 2	252 (56%)
ESL Level 3	255 (69%)
2018-2019	723 (28% of students)
ESL Level 1	80 (5%)
ESL Level 2	91 (22%)
ESL Level 3	552 (81%)
2017-2018	702 (20% of students)
ESL Level 1	89 (4%)
ESL Level 2	95 (19%)
ESL Level 3	518 (100%)
2016-2017	704 (9% of students)
ESL Level 1	156 (9%)
ESL Level 2	200 (87%)
ESL Level 3	348 (100%)

Discussion on Course Completion:

Overall program completion (measured by attendance of 90 hours or more) has markedly increased in the last four years. From 2016-17 to 2019-20, completion increased by 36%, which is a positive trend. This can likely be attributed to FIELD instructors emphasizing the importance of attendance. The FIELD Director has discussed with FIELD the issue of attendance disparity and brainstormed ideas of how to improve attendance such as tailoring the schedule more to students lives and shortening meeting times. For example, classes have been offered in both 2 hour and 3 hours increments. FIELD's student population poses inherent challenges to robust attendance because many students work long hours and/or seasonally. FIELD reports that attendance is primarily impacted by harvest time and children's school breaks. FIELD has addressed some of these issues such as scheduling classes that mirror local school district schedules. The FIELD Director debunked an institutional myth that FIELD must schedule the same breaks as the College, which enabled mirroring of schedules. With the commencement of online classes in January 2021, the FIELD Director projects improvements in attendance due to the nature of flexibility in one's time,

however the FIELD Director will continue to be mindful of the obstacles online poses to this student population and monitor attendance data.

3-Class Certificate of Completion Rates for each year: Number of students completing the sequence (ESL 1, 2 & 3)

	2016-2017	2017-2018	2018-2019	2019-2020
English as a Second Language - ESL	0	0	380	2

The FIELD Director acknowledges that the Completion Rate data is not accurate as Enrollment Services did not award ESL certificates until 2018 upon the FIELD Director's request and as of December 2020, certificates had yet to be awarded for 2019-2020.

a) **Course Completion Rate Goal**: It is not in the FIELD Director's purview to set Course Completion Rate goals, however the Director consistently collaborates with FIELD to ensure program improvement. As FIELD rolls out online classes where ESL levels are taught individually rather than concurrently, the FIELD Director believes that proficiency will improve in ESL 3 and will be reflected in future CASAS testing data and course completion rates.

b) **Course Success Rate:** As SLOs are currently not entered into a database, it is not possible to provide a an assessment of Course Success Rate based on SLOs. As course completion is based on positive attendance,the FIELD Director contends that analyzing the number of students who attended minimum required hours (90 hours for each ESL level) is not a meaningful data to analyze in terms of course success rates. To understand student success, the CASAS data is a far more meaningful data regarding course success as profiency in English speaking and writing skills are assessed, which CASAS terms "Educational Functioning Level Completion Rates" which pertains to those students who attend more than 40 hours of instruction within the 90-hour session and have taken a pre-test and post-test at session's end. This following is based on CASAS data of which the entirety can be found in section 3 of this report.

CASAS Educational Functioning Student Percentages

2019-2020

ESL 1: 59% (State Average: 49%, State Goal: 60%)

ESL 2: 53% (State Average: 45%, State Goal: 53%)

ESL 3: 32% (State Average: 31%, State Goal: 36%)

2018-2019

ESL 1: 68% (State Average: 62%, State Goal: 58%)

ESL 2: 54% (State Average: 55%, State Goal: 53%)

ESL 3: 20% (State Average: 39%, State Goal: 35%)

2017-2018

ESL 1: 53% (State Average: 60%, State Goal: 64%)

ESL 2: 44% (State Average: 54% , State Goal: 58%)

ESL 3: 32% (State Average: 38% , State Goal: 40%)

2016-2017*

ESL 1: 49%

ESL 2: 46%

ESL 3: 37%
*State Average & Goal Data Unavailable

Conclusions from CASAS Data: As ESL level increases, average proficiency decreases within the ESL program. This inverse relationship between ESL level increase and proficiency decrease is consistent with state averages as seen above. However, these ESL students tend demonstrate proficiency lower than state averages, which is a concern to the FIELD Director, an issue the Director brought to the College President in 2019 and to FIELD leadership. In 2019, the FIELD Director noted significant improvements in proficiency at both the ESL 1 and ESL 2 levels from 2017-18 to 2018-19. One factor that may be attributed to lower average proficiency than state averages, is the low-education levels and literacy rates of as FIELD recruits low-skilled workers — predominantly farmworkers — for its ESL classes. Also, many students either lack technology know-how or sufficient technology. This poses a unique set of challenges to ESL instructors, challenges that should always be factored in when developing new efforts. Another factor may be high instructor turnover, which can be attributed to lack of competitive pay and work schedules.

c) **Faculty Ratio -- Part-Time to Full-Time Ratio**: All ESL faculty are the employees of FIELD. The College doesn't have any control over whether FIELD hires instructors full-time or part-time. However, FIELD has indicated that when classes are transitioned to fully online in January 2021, those instructors will likely be offered full-time positions. The FIELD Director believes this will help retain instructors and will monitor turnover.

5. Qualitative Data:

Enrollments by Student & Course

(students can potentially enroll multiples times in the same course)

Academic Year	Totals Student Enrollments	Total Enrollments by Course Level
2019-2020	1661	4370
ESL Level 1	845	1591
ESL Level 2	447	1434
ESL Level 3	369	1345
2018-2019	2612	5811
ESL Level 1	1518	1941
ESL Level 2	414	1071
ESL Level 3	680	2799
2017-2018	3518	6452
ESL Level 1	2492	2882
ESL Level 2	509	1195
ESL Level 3	517	2375
2016-2017	2316	5008
ESL Level 1	1739	2194
ESL Level 2	230	1112
ESL Level 3	347	1702

FTES by Year for ESL Program

Academic Year	Program Approximations	DataMart Totals
2019-2020	370	362.07
2018-2019	548.87	428.12
2017-2018	590	352.52
2016-2017	471.23	495.24

6. Evaluation:

ISA Programs Strengths:

• Significantly bolsters College's ability to serve diverse populations
• Supports equity populations specifically Latino students

• FIELD's dedicated faculty

• ESL serves as a bridge to high school completion

• FIELD organization's resilence and adaptability to pandemic

Weaknesses:

• Attendance disparity (attendance ranges from 18-85% in individual ESL classes)

• Number of students earning ESL certificate

• Access to student services due to proximity of FIELD classes to Weed Campus

• Inability to effectively utilize College faculty as a resource due to political tensions
• No full-time instructors due to FIELD's budget constraints (however this may change in the near-future in the transition to online classes)

• High instructor turnover

Challenges

• Low-education level of students
• Student work schedules
• Student lack of technology access
• Instructor pay and schedules

7. Vision: This section is not technically applicable as the COS-FIELD ISA is not a "program." However the Director plans to ensure all systems are in place to ensure student success and compliance with all Title 5 requirements pertaining to the ISA.

8. Progress on Prior Goals: This section is not applicable as a Program Review was never previously conducted. However, the Director affirms that all the Recommendations from the 2016 accreditation process are met. Those pertaining to the ISA are as follows:

Recommendation 4: In order to meet the Standard, the College should file a Substantive Change Report regarding its Instructional Service Agreements for the FIELD and SFPA programs. Requirement Met: In 2017, the Director wrote a Substantive Change Report, which was approved by the ACCJC in 2017.

Recommendation 6: In order to meet the Standard, the team recommends the College develop mechanisms to assure that student learning outcomes assessment and program review take place for the FIELD and SFPA programs. Requirements Met: As previously stated, in summer 2017, the Director created a protocol and system to collect SLOs as SLOs were not previously collected since the 2012 commencement of the FIELD ISA. (See preceding section 3 for more details.) Writing and submission of this 2020 Program Review meets also meets Recommendation 6.

9. Four-Year Action Plan:

In the next four years, the Director will continue to serve as a liaison between FIELD and the College to ensure compliance with Title 5 requirements. The Director will also continue to work closely with FIELD staff and the College's Non-Credit Director to build CTE pathways such as business and firefighting. In the last three years, the Director has created protocols and systems to help ensure compliance in such areas as:

Class Visitations: The Director established a plan to ensure there are consistent classes visitations. Each semester, the Director visits class sites. Post-pandemic, the Director devised a system to visit each instructor's class for each session via Zoom.

Instructor Evaluations: The Director created a protocol and evaluation system to ensure FIELD instructors are evaluated by peers, students, and self as required by the College. The Director will ensure the instructor evaluations will continue within the online teaching environment.

Syllabi: The Director provides training to instructors regarding creating syllabi that meet accreditation standards and collects syllabi for all sessions.

In the coming years, the Director will develop protocols and system to ensure compliance for online classes such as:

Online ESL: With the fall 2020 approval of online ESL, the issue of teaching concurrent levels will be mitigated through online classes. Instructors will create individual Canvas shells for each of the three levels, which removes the challenges associated with multi-level instruction.

Ensure Establishment of Support Centers for Online Classes: Support Centers will be places students go to get help with technological support provided by teaching assistants. With the understanding that most FIELD students have limited computer skills, teaching assistants will help with such tasks as logging into class. There will be about 10-15 laptops in each center. Most of the centers will be at existing FIELD locations.

The ESL instructor/s will be available online only and will offer weekly live sessions (office hours) for students to ask questions. These live sessions won't be mandatory for students. Some of the class will be taught through previously recorded video lectures. There will be a cap of about 25-30 students per course. Due to students' limited computer skills, the Director has suggested for FIELD offer a pre-online training to onboard students so they have they basic computer knowledge necessary to navigate the course. The ISA (either a separate one covering online classes or an MOU addendum) will need to include exactly what activities will take place in the Student Support Centers.The Agreement should also make clear the responsibilities of each party (FIELD and COS) in providing these online classes and services offered in the student centers.

Ensure Online Support of Students During the Pandemic: At the time this report was written, the pandemic is underway and thus establishment of Student Center is not feasible. However, the FIELD Director is collaborating with a COS adjunct faculty and FIELD collegue to ensure students will be provided support ot prepare them to use Canvas. Also, additional hours for instructor contact (12 hours per class in each ESL level) were added to the online classes, which can be found as an attachment in the Course Outline.
