## 1. Description of the Program

### Mission

The current mission of the Library is "to meet the learning needs of students and the learning and instructional needs of faculty and staff by providing access to information and knowledge." Our mission statement goes on to describe how we will achieve this, by providing "the best possible collections, support services, training, technology and facilities to assist students and staff in achieving success in accordance with the overall mission of the College." In addition, we serve as an outreach area of the college by working "cooperatively with local public and school libraries and other organizations to serve the information and cultural needs of the community."

## Staffing

The Library manages day-to-day operations with an ever-shrinking number of staff members. The Library started out the last four years with a staff of just three people:

- Marcia Eblen, Library Technician (12 month, Classified)
- Linda Kiely, Library Technician (12 month, Classified)
- Jude Baldwin, Librarian (195 days, Faculty)

Marcia Eblen retired in June 2020 and Linda Kiely retired at the end of the Fall 2020 semester. The Library now functions with a staff of just two people:

- James Wilcox, Library Technician II (12 month, Classified)
- Jude Baldwin, Librarian (195 days, Faculty)

Library staff reports to the Dean of Liberal Arts in Academic Affairs. Deans during this time period were:

- Burt Peretti (September 2019 – March 2020)
- Valerie Roberts (March 2020 – current)

## Who We Serve & How We Serve Them

As our mission statement mentions, the Library primarily serves College of the Siskiyous' students, faculty, and staff. We secondarily serve our community members who are not currently enrolled in classes and visiting researchers. We serve our campus and wider community through our collections, services, and physical and online spaces.

The Library serves our campus by providing collections relevant to campus needs. Our main goals in managing our collection are to:

1. Support students with their class work
2. Support faculty preparation for classes
3. Support college employees in their professional duties
4. Support students and employees in life-long learning and reading
5. Preserve local history

Collection materials can be physical or electronic. Physical collections include books, reserve textbooks, audio recordings in a variety of formats, DVDs, maps, periodicals, and ephemera. Electronic collections include online articles, ebooks, and streaming videos and other media (such as e-audiobooks); these are usually packaged together and accessed as databases. The Library also now manages the campus laptop and graphing calculator checkout programs.

Equally as important are the many library services staff are able to provide. These include:

- Research and information literacy instruction using a wide variety of methods
- Direct research assistance
- Computer technical support
- Interlibrary loan

More details about our instruction program and direct research assistance are covered in other areas of this program review.

The Library can be contacted in a wide variety of ways, including new methods added during the last four years:

- In person during library hours
- Phone
- Email
- Drop-in Zoom hours (added Spring 2020)
- Text (added Summer 2020)
- Chat via our web site, the library catalog, and EBSCO databases (added Summer 2022)

As a facility, the Library offers quiet study space, a group study room, and a casual "lounge" area that doubles as our event space. Food and drink are allowed everywhere in the Library. Our space also provides a home for our physical collections, as well as staff areas and storage. Our space contains necessary equipment such as computers, printers (black & white and color), copier, scanner, microfilm reader, and media players.

The Library manages an online "space" as well through our pages on the COS web site, where we provide general FAQs, self-serve how-to information regarding research in the form of handouts and videos, and information to support faculty. Our web site also contains our library catalog search interface and access to our article databases and other online collections.

## Library Operations as Percent of the College's Budget

The Library provides these all of these resources and services to all students and employees all year round with a small budget that is only 1% of the College's expenditures. Other than staff, our collections (primarily in Capital Outlay), which include databases and the software required to manage them, are our largest expenditures.

*Table 1: Percent of COS expenditures spent on the Library*

| | COS FY2022-23 Budget* | | | Library FY2022-23^ | | | % of COS Budget |
|---|---|---|---|---|---|---|---|
| | Unrestricted | Restricted | Total | General | Lottery | Total | |
| Academic Salaries | $ 6,256,446 | $ 402,554 | $6,659,000 | $78,022 | $0 | $78,022 | 1.3% |
| Classified Salaries | 4,694,183 | 1,677,954 | 6,372,137 | 87,865 | 0 | 87,865 | 1.5% |
| Employee Benefits | 5,832,101 | 1,202,611 | 7,034,712 | 89,171 | 0 | 89,171 | 1.5% |
| Supplies | 387,358 | 1,002,633 | 1,389,991 | 1,070 | 3,091 | 4,161 | 0.8% |
| Other Operating Expenses | 4,596,276 | 2,051,024 | 6,647,300 | 21,691 | 0 | 21,691 | 0.3% |
| Capital Outlay | 1,159,978 | 782,855 | 1,942,833 | 1,439 | 19,887 | 21,326 | 1.3% |
| Other Outgo | 361,267 | 1,861,316 | 2,222,583 | 0 | 0 | 0 | 0.0% |
| TOTAL | $23,287,609 | $8,980,947 | $32,268,556 | $279,258 | $22,978 | $302,236 | 1.1% |

*as passed by the Board of Trustees on June 28, 2022

## 2. External Factors with Significant Impact

### The COVID-19 Pandemic

The impact of the COVID-19 pandemic on library operations during this time period cannot be ignored. The College of the Siskiyous campus shut down in March 2020 and most instruction was moved online; in person classes did not really start to return in significant numbers until Fall 2021 (face-to-face enrollment continues to be down from pre-pandemic levels). Most employees worked remotely. The stress of this time was high for many people—the risk of getting sick, the death toll of the disease, job and financial insecurities, lack of child care and at-home K-12 remote learning, contentious politics, and general uncertainty—made 2020-2021 especially difficult times.

In terms of library operations, the pandemic had both positive and negative impacts. Let's get the negative out of the way first:

- Prompted the retirement of library staff
- Lack of direct connection with students
- Could not serve students who were regular users of our space

The Library's physical space was open on and off between March 2020 – March 2022 due to pandemic fluctuations and/or staff shortages.

- Spring 2020 (starting in March) & Summer 2020: physical library closed
- Fall 2020: physical library open with reduced hours
- Winter 2021, Spring 2021, & Summer 2021: physically closed (only one staff person left)
- Fall 2021: physical library open with reduced hours (only one staff person left but Library re-opened in expectation that a second staff member would be hired; this did not happen until February)
- Winter 2022: physical library closed
- Spring 2022: physical library open with reduced hours initially, increased to full business hours mid-semester (after new hire was trained)

On the positive side, the pandemic gave us the opportunity to try new things, many of which have been very successful:

- Implemented texting, Zoom, and chat services as contact methods
- Expanded library-generated instruction
- Started a circulating reserves collection
- Started to purchase required reading materials as ebooks and e-audiobooks when available
- Increased database offerings
- Strengthened partnerships with other areas on campus, especially the Academic Success Center (ASC) and Basecamp

### Staffing Challenges

As it has been mentioned several times, library staffing has become an increasing challenge. In 2008, the Library had a staff of seven: five classified staff, one faculty librarian, and one full-time, year-round librarian who served as director. Staff numbers have been shrinking since then. By 2012, the Library no longer had a full-time, year-round library director but an Assistant Dean who served oversaw the Library, Distance Learning, and other areas (Nancy Shepard); no full-time faculty librarian (the position

had been vacant since 2008); and three classified staff (one position was eliminated in 2009, the other position was not re-filled after the incumbent retired in 2010). 2012 saw two other staff changes when a part-time faculty librarian was hired (Jude Baldwin) and a classified staff position was eliminated (Martha Berryman's position).

The Library eliminated the part-time faculty librarian position when it was able to add a full-time faculty librarian position in 2014 (Jude Baldwin). In November 2016, the Assistant Dean of Learning Resources (Nancy Shepard) retired and administrative oversight was transferred to the Dean of Liberal Arts & Sciences position in the Instruction office.

Marcia Eblen, who had worked at COS for over 30 years, retired in June 2020 and Linda Kiely (hired in 2016) retired at the end of the Fall 2020 semester (technically, her last day was in January 2021 but she ceased working in December). Marcia Eblen's position was eliminated in the staff restructuring under college President Dr. Schoonmaker. The Library successfully re-wrote and upgraded the classification of the Library Technician position from a Level I to Level II; James Wilcox started in this new position in February 2022. Jude Baldwin was the sole library employee for all of 2021 and January of 2022.

Operating with just three staff members was limiting and operating with just two is even more so. Technological changes in library operations and a scaling back of hours and services over the years has allowed us to function with dwindling staff. While the Library may be functioning adequately, we are not thriving. Some of the impacts of our current staffing levels are that it:

- Limits open hours
- Causes occasional closures for lunch or longer (unstable hours)
- Limits increased engagement with students through events
- Limits staff participation in shared governance (when only one person is working it can be difficult/impossible to fully participate in meetings and trainings)
- Limits librarian's availability to develop new micro-courses (the Library's very successful self-paced instruction program)
- Limits librarian's availability to develop new EdTALKS
- Significantly slowed our full implementation of OneSearch (the LSP/library catalog)
- Limits expansion of self-serve instructional web site content
- Limits creation of cross-references in our collection to increase use of materials
- Limits our ability to participate in campus table events
- Increases our reliance on series and pre-made collections when purchasing books
- Decreases our ability to weed outdated materials from our collections so that they better serve student needs
- Limits our ability to actively recover checked-out materials from students in a timely manner

The Library has repeatedly asked for funding to increase staff in various ways. While the College has been responsive about granting funds to cover faculty librarian adjunct contracts for Summer and Winter Sessions, most requests for employee funding have been unsuccessful, as these program review Continuous Quality Improvement Proposal (CQIP) examples show:

- AY17-18 program review:
    - Requested funds to increase the length of the faculty librarian contract *(not funded)*

    - Requested funds to cover classified staff overtime in order to cover evening hours when the librarian was unavailable *(not funded)*
- AY18-19 program review:
    - Requested funds to increase faculty adjunct contract for LSP migration project *(funding approved)*
    - Repeat request to fund evening backup hours *(not funded)*
- AY19-20 program review:
    - Requested funds to rehire Marcia Eblen' position and/or increase the faculty librarian contract to 244 days (from 195) *(not funded)*
- AY20-21 program review:
    - Requested funds to upgrade the remaining classified Librarian Technician position from Level I to Level II *(funding approved)*
- AY21-22 program review:
    - Requested funds to increase the length of the faculty librarian contract *(not funded)*
- AY22-23 program review:
    - Requested funds to increase the length of the faculty librarian contract *(not funded)*
    - Requested funds for a part-time classified Librarian Technician I position *(not funded)*

### Library vs. the Internet

Current traditional college-aged students have never known a time without the internet and its wealth of free information, often presented in an easily digested format. Trying to communicate and convince students of the value of library resources like databases is difficult. A finding from the Library Student Focus Group report put it bluntly: "Students in this group much preferred the internet and saw the library as a dated resource." This may explain the waning "strongly agree/agree" responses to the annual student question, "Having used the COS Library's resources, services, and instruction, I appreciate the value of libraries in supporting student success," which has decreased from a high of 98% in 2019 to 87% in 2023 (although 87% is up from the pandemic low of 77%).

### Budget Shortfall Predictions

The Library budget has been relatively flat for the last four years and we have only needed to make minor cuts to cover our rising operating costs. We have been fortunate to receive supplemental funding from non-District sources such as CARES/HEERF funds during the pandemic, Guided Pathways funds, Instructional Equipment funds, and Foundation Mini-Grants. College budget predictions vary and include some grim scenarios. The Library keeps financial sustainability in mind when making many financial decisions.

## 3. Outcomes Assessment

During this time period the Library had three Student Learning Outcomes (SLOs).

1. SLO 1: Students who receive formal research instruction provided by the COS Library will be able to effectively locate needed information using a variety of library resources.
2. SLO 2: Students who participate in formal research instruction will be able to evaluate for credibility information provided by the library, Internet resources, and other information sources.

3. SLO 3: Students who use the COS Library and utilize its resources, services, and formal instruction will appreciate the value of libraries in supporting academic and/or career success and in supporting life-long learning.

When assessing, the Library uses the Institutional Set Standards as agreed on by the Academic Senate to determine whether each SLO is being met:

- Transfer courses (such as ENGL 1001): ≥67%
- Credit courses (such as ENGL 0900): ≥67%
- Basic Skills courses (such as ENGL 0850): ≥45%
- Vocational Courses: ≥70%

Common methods for gathering data include:

- students answering "strongly agree" or "agree" on post-class session surveys or the Annual Student Survey
- Library Micro-Course quiz completion scores
- students scores on activities or assignments

## SLO 1: Students who receive formal research instruction provided by the COS Library will be able to effectively locate needed information using a variety of library resources.

### *ENGL 1001 discussion posts*

Since Fall 2021, Liz Carlyle's online ENGL1001 classes have a discussion assignment asking students to choose keywords for a topic of their choosing and to find two articles using the library's EBSCO databases. Liz has imported and modified the Library's research modules from the Canvas Commons which cover how to get to and select a database, how to use the basic features of EBSCO, and how to choose basic keywords. Discussion posts were analyzed to see if students were able to meet the assignment criteria, showing an ability to effectively locate needed information using library sources.

Of the students who attempted the assignment, most students were able to find two database articles (92%) and identify reasonable keywords for their topic (95%). Many students (21) did not supply keywords as per the assignment instructions. A student was considered not able to identify reasonable keywords if they vastly oversimplified their topic (for example, a topic on the impact the COVID-19 pandemic on the music industry was searched as simply *music*) or if they used sentence fragments more suitable to natural language searching. Overall, these ENGL 1001 students demonstrate being able to meet this SLO. Please see Appendix A for full assessment data.

### *ENGL 1001 Post-Class Visit Student Surveys*

During this time period the Library conducted evaluations after visits with Liz Carlyle's ENGL 1001 classes. Students reported that the Library visits helped them to feel more confident in getting to the databases (90%), finding articles in EBSCO (99%), choosing keywords (78%), and using advanced search techniques (85%). Their responses showed that they were meeting this SLO. Please see Appendix B for full survey data.

## *Library Micro-Courses*

The Library launched the Library Micro-Courses (LMCs) in Spring 2022. Five of the LMCs offered since then support SLO #1:

1. COS Library Basics
2. Getting Started with Library Research
3. EBSCO Article Database Basics
4. EBSCO Hands-On Practice
5. Keyword Searching Basics

The quiz at the end of each micro-course has a total of 10 possible points. Because quizzes are untimed, repeatable, and open book, the Library considers a score of 8 to be "passing." Student scores on the end-of-course quizzes for these micro-courses average between 8.51 to 9.34, demonstrating that they are meeting these SLO.

The Library opens a new LMC Canvas shell twice a year at the start of the Fall and Spring semesters. Before opening them to students, the quizzes are reviewed using the Quiz Statistics feature in Canvas. Questions that students frequently get wrong are modified or replaced in a way that hopefully resonates more with students.

Student feedback about the micro-courses has been positive and many students have expressed that they learning something new from the micro-course. The number of student participants has grown each semester since they launched, from just 23 students in Spring/Summer 2022 to 98 in Fall/Winter 2022-23 to 122 students in Spring/Summer 2023. Much of this growth is due to the COLL 0600 requirement that students complete a certain number of EdTALKS each semester. The micro-courses are considered an EDTALK for this purpose and students seem to appreciate the convenience of an online 24/7 option to meet this requirement instead of a synchronous EdTALK workshop.

Please see Appendix C for LCM SLOs and assessment data.

## *Annual Student Survey*

The Library collects feedback about this SLO through a question on our Annual Student Survey:

> **Survey Question:** The library provides information and instruction for students to help them develop good research skills.

Previously the survey was collected in the Library, Student Center, and Lodges on the Weed Campus, the Main Office and/or ASC on the Yreka Campus, as well as online but since 2020 the survey has been conducted entirely online. Results from this question show that students think the Library could be doing more to help them develop their research skills, although the numbers do meet the criteria of the assessment plan standards. Student satisfaction in this area dropped during the pandemic which is understandable since instruction offerings decreased, especially class visits. After a low in 2021 of 66%, student satisfaction is on the rise, a trajectory that will hopefully continue. During that time there has also been a rise in students claiming to be neutral and who answer "Don't Know or N/A"; the number of students expressing dissatisfaction (Disagree/Strongly disagree) has returned to pre-pandemic levels after a bump in 2020-2021.

*Table 2: Responses to survey question: The library provides information and instruction for students to help them develop good research skills.*

| Student response | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|
| Strongly Agree | 56% | 54% | 43% | 40% | 44% |
| Agree | 33% | 33% | 30% | 36% | 38% |
| Neutral | 8% | 9% | 7% | 13% | 13% |
| Disagree | 0 | 0 | 2% | 2% | 0 |
| Strongly Disagree | 2% | 0 | 0 | 0 | 0 |
| Don't Know or N/A | 2% | 4% | 18% | 9% | 6% |

*Table 3: General student satisfaction in response to survey question: The library provides information and instruction for students to help them develop good research skills.*

| Student response | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|
| Strongly Agree / Agree | 92% | 81% | 66% | 71% | 77% |
| Disagree / Strongly disagree | 4% | 9% | 7% | 4% | 3% |

## SLO 2: Students who participate in formal research instruction will be able to evaluate for credibility information provided by the library, Internet resources, and other information sources.

The Library did not have the opportunity to offer formal instruction on this SLO between AY2019-20 and AY2022-23. The Library offered an EdTALK on web site evaluation, *Is This Web Site Credible?*, three times (in AY21-22), as well as the somewhat-related *Using Wikipedia Wisely in College Research* (4 times total in AY21-22 and AY22-23), but no assessment is conducted after EdTALKS.

The Library does include a relevant question on our Annual Student Survey:

> **Survey Question:** The library staff helped me learn how to find credible information in the library, on the internet, or using other sources (can be in person or Zoom, by phone/text/email, library videos/handouts used in class, or through in-class librarian visits/support)

Students do not think that the Library is doing a great job at teaching them this important skill, based on the survey results during this time period, which ranged from a low of 66% (2021) to 79% (2019). Again, students do not report dissatisfaction but more have moved from Strongly Agree/Agree to Don't Know or N/A.

*Table 4: Responses to survey question: The library staff helped me learn how to find credible information in the library, on the internet, or using other sources*

| Student response | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|
| Strongly Agree | 48% | 41% | 39% | 32% | 39% |
| Agree | 31% | 28% | 30% | 34% | 31% |
| Neutral | 14% | 13% | 11% | 10% | 15% |
| Disagree | 2% | 2% | 0 | 1% | 0 |
| Strongly Disagree | 2% | 0 | 0 | 0 | 0 |
| Don't Know or N/A | 3% | 15% | 20% | 23% | 14% |

*Table 5: General student satisfaction in response to survey question: The library provides information and instruction for students to help them develop good research skills.*

| Student response | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|
| Strongly Agree / Agree | 79% | 69% | 69% | 66% | 70% |
| Disagree / Strongly disagree | 4% | 2% | 0 | 1% | 0 |

The Library hopes to address this gap by offering LIBR 1001 starting in Spring 2023 and a micro-course on web site evaluation. The micro-courses in particular reach a lot of students, so this may be the most effective way to positively impact this survey response.

## SLO 3: Students who use the COS Library and utilize its resources, services, and formal instruction will appreciate the value of libraries in supporting academic and/or career success and in supporting life-long learning.

The Library measures this SLO using the following question on our Annual Student Survey:

- **Survey Question:** Having used the COS Library's resources, services, and instruction, I appreciate the value of libraries in supporting student success.

We consider this SLO to be met when 75% or more of surveyed students "strongly agree" or "agree" to the Library Student Survey question about appreciating the value of libraries. All survey results in the last six years show that we are consistently meeting this SLO. Like other survey results, student satisfaction went down during the pandemic to 77% of students answering "strongly agree" or "agree," the lowest score the Library has ever seen since we started to ask this question in 2007. Hopefully student satisfaction will continue to rise as we put the pandemic years behind us.

*Table 6: Responses to survey question: Having used the COS Library's resources, services, and instruction, I appreciate the value of libraries in supporting student success*

| Student Response | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|
| Strongly Agree | 78% | 65% | 52% | 51% | 52% |
| Agree | 20% | 26% | 25% | 35% | 35% |
| Neutral | 0 | 4 | 7% | 5% | 5% |
| Disagree | 0 | 0 | 0 | 0 | 0 |
| Strongly Disagree | 2% | 0 | 0 | 0 | 0 |
| Don't Know or N/A | 0 | 4% | 16% | 10% | 7% |

*Table 7: General student satisfaction in response to survey question: Having used the COS Library's resources, services, and instruction, I appreciate the value of libraries in supporting student success*

| Student response | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|
| Strongly Agree / Agree | 98% | 91% | 77% | 86% | 87% |
| Disagree / Strongly disagree | 2% | 0% | 0% | 0% | 0% |

# 4. Library Quantitative & Qualitative Data

## Research & Information Literacy Instruction

In the last four years, the Library has focused on growing our research and information literacy instruction offerings. Traditionally, library instruction happened primarily through classroom visits to support student assignments. While this point-of-need instruction is very valuable, how frequently it happens is determined by faculty. Requests for class visits dropped by more than half during the pandemic and have not recovered: only 61 classroom visits were conducted in the past four years compared to 148 in the previous four-year period. It should be noted that the overall number of classes being offered is also down and the number of in-person classes—where most class visits occur—has not recovered to pre-pandemic levels.

*Table 8: Research & information literacy instruction sessions*

| | AY19-20 | AY20-21 | AY21-22 | AY22-23 | Fa19 - Sp23 Totals | Fa14 - Sp19 Totals |
|---|---|---|---|---|---|---|
| Class visits | 31 | 11 | 7 | 12 | 61 | 148 |
| Library tours | 16 | 0 | 9 | 15 | 40 | 66 |
| Workshops | 0 | 5 | 33 | 36 | 74 | 8 |
| Other | 17 | 0 | 7 | 8 | 32 | 81 |
| total | 64 | 16 | 56 | 71 | 207 | 303 |
| student participants | 1,092 | 214 | 507 | 2,445 | 4,961 | 4,961 |

As Table 8 shows, while the number of class visits is down, student participation in library instruction is up! This is mostly due to the Library Micro-Courses (LMC's) (counted in the "workshop" category in the chart above, which also includes EdTALKS). Student participation in the LMC's has grown every

semester since they were launched. The Library Micro-Courses are considered an EdTALK and are taken by students for extra credit or to fill requirements for COLL 0600 (formerly EDUC 0670); while students can take them for Lodge incentive points, they very rarely do so. Micro-courses are sometimes completed as course assignments, primarily English.

In Spring 2023, 113 students took 347 micro-courses. That semester there were eleven micro-courses to choose from, with *COS Library Basics* (55 completions) and *Getting Started with Library Research* (54 completions) being the most popular, followed by *Scholarly Conversation, Plagiarism & Why We Cite* (48 completions) and *EBSCO Article Database Basics* (45 completions). Least popular were the micro-courses covering APA citations. Students are given the opportunity to provide anonymous survey feedback after each micro-course, which thus far has been positive. In the survey, students are allowed to give a star rating to each course, which is published on the micro-courses home page for future students to see. So far, all courses have received a rating of 4.5 out of 5 stars or above. Considering both the number of students participating, the satisfaction students express, and their contribution to meeting our learning outcomes, the Library Micro-Courses are a success!

"Other" instructional activities in the chart above include general orientations for classes and the Lodges (i.e. a general overview of library services and collections, not direct research support for an assignment); being an interactive class scavenger hunt stop; and the faculty librarian serving as an in-class resource during hands-on class research time.

## General Use of the Library's Collections

Before the pandemic, students taking our Annual Student Survey respond that our collections, both physical and electronic, were doing well at meeting their needs, with 92% of respondents in 2019 answering Strongly Agree or Agree. Student opinions sank during the pandemic to 66% (2021) but they are on the rise again, up to 77% in 2023.

*Table 9: Responses to survey question: Library collections are sufficient in quantity, currency, depth, and variety to support student research needs*

| | | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|---|
| Library collections are sufficient in quantity, currency, depth, and variety to support student research needs. | Strongly Agree | 50% | 33% | 30% | 30% | 34% |
| | Agree | 42% | 48% | 36% | 41% | 43% |
| | Neutral | 2% | 7% | 16% | 17% | 12% |
| | Disagree | 2% | 7% | 7% | 2% | 3% |
| | Strongly Disagree | 2% | 2% | 0 | 2% | 0 |
| | Don't Know or N/A | 3% | 4% | 11% | 9% | 9% |

The Library currently spends about half of its budget (excluding personnel costs) on materials for our collections. About 75 percent of collection costs are for online subscriptions and 25 percent for physical materials. Of the physical materials we purchase, an increasing percentage is going towards textbooks as we continue to grow the circulating textbook reserves collection. Online collections are cost effective and are readily available to all students 24/7, regardless of location. This balance appears to be generally effective and helps us to meet Accreditation Standard IIB1.

## Circulating Reserve Textbooks

The Library started this time period with a traditional textbook reserve collection: a set of most of the textbooks being used in COS classes that were available for use in the COS Library. We also had a small collection of textbooks for use on the Yreka Campus, selected in consultation with the Yreka-based counselor and using class schedules for Yreka-based classes (including videoconferenced classes).

The pandemic made the college aware of how many students struggled to get their textbooks and brought with it an influx of funds that made purchasing textbooks possible. Textbooks from both campuses were consolidated into one working collection and annual District funds spent on textbooks increased by about $1,000, but it was CARES (Coronavirus Aid, Relief, and Economic Security)/HEERF (Higher Education Emergency Relief Fund) funds that made building a circulating textbook collection possible.

*Table 10: Funds spent on textbook reserves*

| | FY 19-20 | FY 20-21 | FY 21-22 | FY 22-23 |
|---|---|---|---|---|
| District | $3,426 | $3,352 | $4,520 | $4,440 |
| CARES / HEERF | $0 | $0 | $22,445 | $18,231 |

Now that the Library has a core collection of two copies of most textbooks (one for in-library use, one for checkout), we purchase by request since student demand changes every semester. We estimate that it will take about $10,000 in FY23-24 to be able to honor most student textbook requests. This purchasing includes ebooks as well as physical textbooks. Library ebooks can be quite expensive, especially since we strive to have at least three concurrent user access to each title in order to serve an entire class. For example, a “regular” book such as *There There*, by Tommy Orange (used in ENGL 1001)

costs $85 for one user and a "traditional" textbook such as *Nutrition for Healthy Eating*, by Wendy Schiff (used in FCS/KINE 1011) costs $711 for three concurrent users.

In the OER Workgroup's survey (Spring 2022), students shared that they prefer print textbooks (64.4% of respondents) over ebooks (20.2% of respondents), however the use statistics for our ebook textbooks shows that they are using them at very high rates (see Database Use section below). Considering that students also admit that in order to reduce textbook costs they have resorted to not purchasing materials at all (36.2%) and taking fewer classes (27.7%), perhaps the fact that the ebooks are free overrides their format preference. When asked "If the College has the financial resources to help reduce your textbook costs (if a free textbook option is not available), what methods would help you the most?", library ebooks (94 responses) were not too far below physical library books (104 responses).

## Ebook Database Use

The Library's online databases are the most used part of our collection, with thousands of uses each semester. Database statistics use a standard called COUNTER in order to make comparisons between vendors more meaningful. Between AY19-20 and AY20-21 there was a significant update in COUNTER reports for ebook use ("circulation") statistics. In AY20-21, the Library still had access to the old AY19-20 COUNTER report option and was able to pull statistics for comparison; they showed a large increase in ebook use. After that baseline comparison, the old COUNTER reports were no longer available. A similar changed occurred with media statistics, however no old reports were available to make a transition comparison for a baseline.

*Table 11: Ebook & digital media title & use statistics*

| Ebook Statistics | AY19-20 | | AY20-21 | | AY21-22 | | AY22-23 | |
|---|---|---|---|---|---|---|---|---|
| | titles | circulation | titles | circulation | titles | circulation | titles | circulation |
| Credo | 1,032 | 319 | 1,146 | 223 | 1,183 | 202 | 1,183 | 132 |
| ebrary | 53,871 | 9,971 | 56,514 | 757 | 58,812 | 2,058 | 60,206 | 2,568 |
| EBSCO | 22,482 | 224 | 22,617 | 201 | 22,711 | 192 | 22,892 | 1,314 |
| OED | 1 | 662 | 1 | 32 | 1 | 63 | 1 | 115 |
| Oxford Reference | 6 | 66 | 6 | 3 | 17 | 15 | 483 | 32 |
| GVRL | 6 | 66 | 6 | 3 | 17 | 15 | 18 | 9 |
| OverDrive | | | 6 | 35 | 13 | 41 | 13 | 54 |
| *Ebook Subtotals* | *77,398* | *11,308* | *80,290* | *1,219* | *82,741* | *2,545* | *84,783* | *4,170* |
| Media Statistics | titles | circulation | titles | circulation | titles | circulation | titles | circulation |
| Films On Demand | 44,242 | 11,765 | 46,908 | 7,504 | 41,182 | 2,432 | 41,182 | 3,501 |
| Swank | 5 | 49 | 6 | 172 | 5 | 111 | 5 | 111 |
| Kanopy | 1 | 3 | 2 | 102 | 4 | 386 | 4 | 386 |
| OverDrive | | | 6 | 16 | 18 | 23 | 21 | 21 |
| AVON | | | 0 | 0 | 79,434 | 291 | 79,434 | 291 |
| *Media Subtotals* | *44,248* | *11,817* | *46,922* | *7,794* | *120,643* | *3,243* | *120,646* | *4,310* |
| **TOTALS** | **121,646** | **23,125** | **127,212** | **9,013** | **203,384** | **5,788** | **205,429** | **8,480** |

- Note (Ebooks): AY19-20 uses COUNTER 4 Book Report 2; AY20-21 and more recent years' use COUNTER 5 Book Requests ("unique title requests")
- Note (Media): AY19-20 uses COUNTER 4 Database 1 Report; AY20-21 and more recent years' use COUNTER 5 IR_M1 Report; OverDrive does not use COUNTER and statistics are from their Title Status & Usage Report

*Table 12: Ebook circulation statistics comparing AY19-20 and AY20-21 using COUNTER 4 Book Report 2*

| Ebook Collection | AY19-20 | AY20-21 |
|---|---|---|
| Credo | 319 | 277 |
| ebrary | 9,971 | 18,649 |
| EBSCO | 224 | 201 |
| OED | 662 | 53 |
| GVRL | 66 | 18 |
| **ebook totals** | **11,242** | **19,198** |

The Library's most-used ebooks are primarily being used as textbooks. They are all in our Ebook Central collection from ProQuest. Of our two main ebook vendors (the other is EBSCO), ProQuest carries the most "traditional" textbooks since they often have McGraw-Hill titles. A list of all titles with 10 or more uses is in Appendix D.

*Table 13: Top 10 most used library ebooks from January 2021 - December 2023*

| Ebook Title | Supplier | Circulation |
|---|---|---|
| Nutrition for Healthy Living | ProQuest | 7,900 |
| We the People | ProQuest | 4,394 |
| Humanities Through the Arts | ProQuest | 3,781 |
| College Accounting Chapters 1-30 | ProQuest | 3,687 |
| Becoming an Ethical Helping Professional | ProQuest | 3,472 |
| Braiding Sweetgrass | ProQuest | 2,452 |
| Learning the Language of Addiction Counseling | ProQuest | 1,142 |
| The Legal and Regulatory Environment of Business | ProQuest | 885 |
| Medical Terminology Systems | ProQuest | 790 |
| Oedipus the King* | ProQuest | 861 |

*This book is not on the COS textbook list but with so many uses, perhaps it is being used by a class?

## Article Database Use

Nineteen of our 21 article databases come from EBSCO. Use of these fantastic resources is strong. Of our EBSCO databases, the five that received the most searches between January 2021 – December 2023 are:

1. Academic Search Complete (29,356 searches)
2. Psychology & Behavioral Sciences Collection (10,478 searches)
3. MasterFILE Complete (7,641 searches)
4. CINAHL Plus with Full Text (Nursing) (6,589 searches)
5. MEDLINE (6,329 searches)

The top databases in terms of the number of items looked at is slightly different, however:

1. Academic Search Complete (39,090 items)
2. Psychology & Behavioral Sciences Collection (5,787 items)
3. CINAHL Plus with Full Text (Nursing) (4,323 items)
4. America: History & Life (3,288 items)
5. Business Source Elite (3,230 items)

Of these top used EBSO databases, the Library only pays for CINAHL; the others are provided by the Chancellor's Office through a system-wide subscription. The two new science databases the Library started to subscribe to in 2022 have thus far only seen moderate use. Hopefully their use will continue to increase as students and faculty become more aware of them.

The two non-EBSCO article databases the Library subscribes to are JSTOR and SIRS Issues Researcher. While the number of JSTOR searches is below the top five, the number of items used is similar to Business Source Elite indicating that it provides valuable resources to students. SIRS Issues Researcher is not doing as well. While this database can be very useful, in our experience most instructors steer students to EBSCO. We need to find a way to increase usage or consider dropping this subscription.

## EZproxy Analytics Database Use Data

The Library had access to more detailed data about use of our online collections through a one-year subscription to EZproxy Analytics (EZPA), which was implemented in Summer 2022. This tool was able to provide information about who was logging into our online collections and when. EZPA was able to include some data from Spring 2022 and complete data for Summer and Fall 2022 and Winter and Spring 2023.

During this time period, students did most of their work on weekdays (about 75-80% of logins) as opposed to weekends (about 20-25% of logins). On weekdays, while a slightly higher percent of student logins were between 8:00 a.m. and 5:00 p.m., evenings were not much less.

*Figure 1: Percent of student database logins on weekdays vs. weekends, Summer 2022 – Spring 2023*

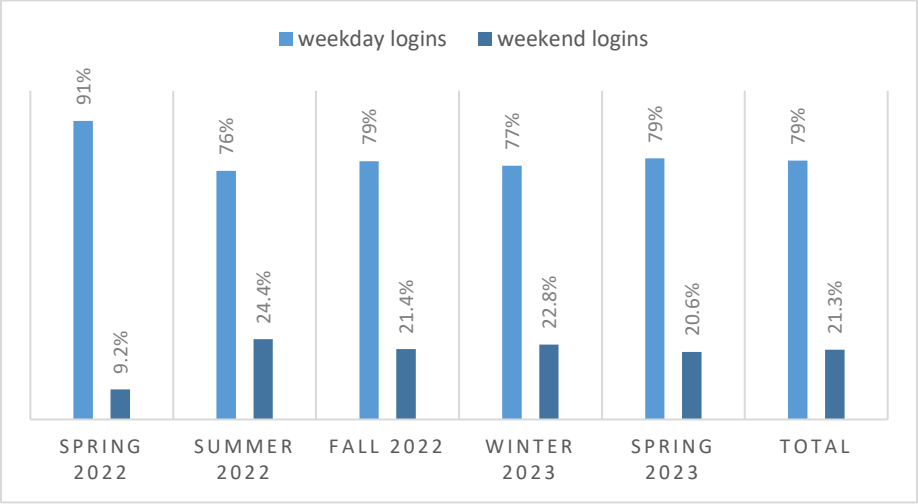

*Figure 2: Percent of student database logins during weekdays, Summer 2022 – Spring 2023*

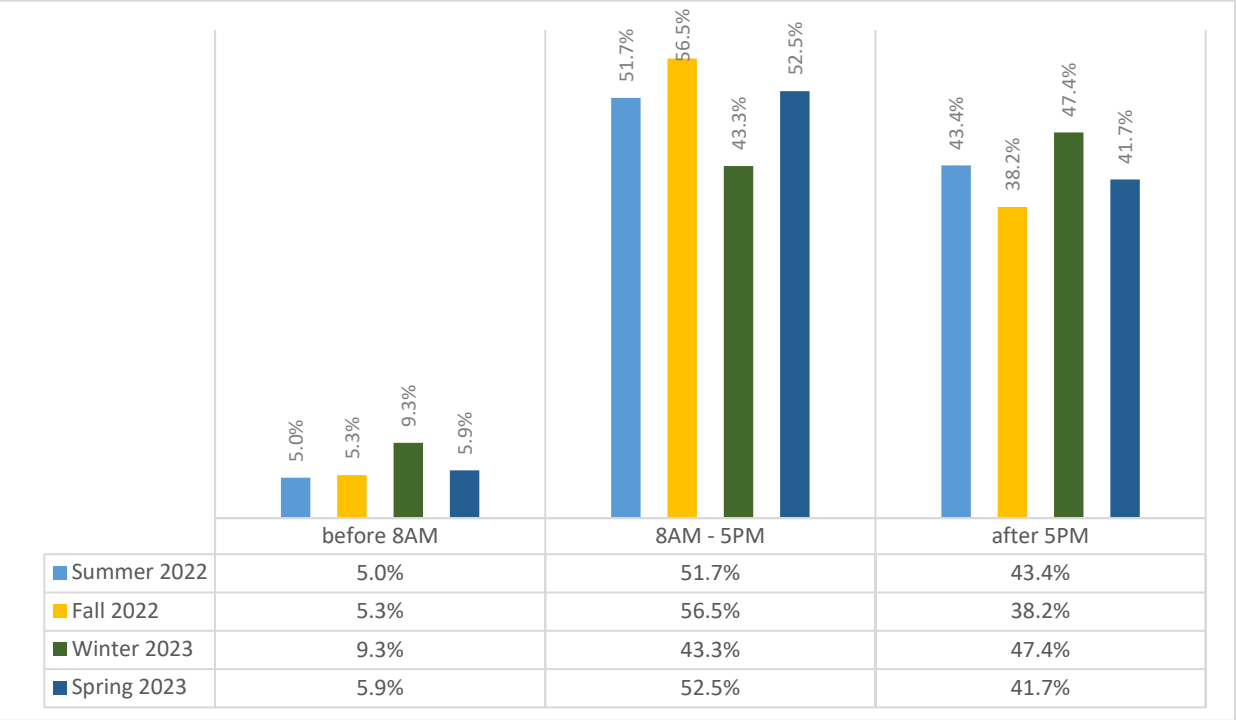

These statistics indicate that, in terms of offering research support, the Library might better serve students by adding evening hours rather than weekend hours.

Demographic data using EZPA logins is in section 4: *Library Quantitative & Qualitative Data: Disaggregated Data*.

## Research Services

For reporting purposes, a reference transaction is defined as:

> Information contacts that involve the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff… Information sources include printed, online, and non-printed materials, e-resources and databases (including assistance with computer searching), the library's own catalogs and other holdings records, other libraries and institutions through communication or referral, and persons both inside and outside the library.[1]

*Table 14: Reference transactions, AY12-13 to AY22-23*

| | AY 12-13 | AY 13-14 | AY 14-15 | AY 15-16 | AY 16-17 | AY 17-18 | AY 18-19 | AY 19-20 | AY 20-21 | AY 21-22 | AY 22-23 |
|---|---|---|---|---|---|---|---|---|---|---|---|
| reference transactions | 561 | 493 | 574 | 493 | 393 | 467 | 277 | 150 | 116 | 108 | 161 |

[1] Association of College & Research Libraries. *ACRL Academic Library Trends and Statistics: Annual Survey: Instructions and Definitions*. (2019, August). https://acrl.countingopinions.com/docs/acrl/2019_Survey_Instructions.pdf

Reference questions have been gradually declining in the Library and, like many of our statistics, took a large hit during the pandemic. One theory about the pre-pandemic decline was that some may be due to an increase in reference questions being handled in the classroom. Hands-on research sessions are conducted with multiple classes each semester. Because of the Library Micro-Courses, many more students have now been exposed to some research skills, which may also reduce requests for help. During the pandemic the Library stopped accepting most requests for Mt. Shasta Collection research due to the need for physical access to the materials and/or staff shortages.

It is also worth noting that in addition to reference transactions, library staff fields a variety of other questions as well such as campus directions, campus contact info, and computer, printing, copier, and scanner help. These are tracked separately from reference transactions.

The Library welcomes research questions in a variety of ways: in person and by email, phone, text, Zoom, and chat. We started tracking these modalities in AY21-22 and it will be interesting to see if preferences evolve as we move away from the pandemic. For example, we saw a large jump between in AY21-22 and AY22-23 when in person reference questions tripled. The below statistics do not include four appointments which were made tracked separately (3 in person, 1 via Zoom).

*Table 15: Contact methods used for reference questions*

| | In Person | Email | Phone | Text* | Zoom | Chat^ | Total |
|---|---|---|---|---|---|---|---|
| AY 21-22 | 26 | 41 | 39 | 5 | 5 | 0 | 116 |
| AY 22-23 | 76 | 30 | 32 | 2 | 4 | 11 | 161 |

*Texting services started Summer 2020 / ^Chat services started in Summer 2022

While students do not often take advantage of texting services to reach out to us, the Library uses it frequently to reach out to students. The Library's use of texting has grown over the time period we have had services.

*Table 16: Library texting statistics*

| | 2021 | 2022 | 2023 |
|---|---|---|---|
| # of messages sent | 149 | 218 | 367 |
| # of messages received | 119 | 187 | 177 |
| # of unique phone numbers contacted | 43 | 35 | 179 |

The Library switched texting service vendors in December 2023 from Zipwhip to Springshare's LibAnswers (Zipwhip was bought by another company and was discontinued). Hopefully LibAnswers will provide similar statistics so that we can continue to track this service's usefulness.

## Use of Our Physical Space

In our previous Four-Year Action Plan, the Library had hoped to reverse the trend of declining gate count numbers. Academic libraries in general have been experiencing a decrease in gate counts, which is a standard metric that reflects the number of people entering a library. AY19-20 looked like it would

be about the same as AY18-19: the average monthly gate count is similar if you factor in that the Library closed in mid-March, but the Library abandoned this goal due to the pandemic. Now that the Library has resumed normal operating hours, our gate counts have started to increase, although they are not yet back to pre-pandemic levels.

*Table 17: Library gate count statistics, AY14-15 to AY22-23*

| | AY 14-15 | AY 15-16 | AY 16-17 | AY 17-18 | AY 18-19 | AY 19-20 | AY 20-21 | AY 21-22 | AY 22-23 |
|---|---|---|---|---|---|---|---|---|---|
| gate count | 20,944 | 23,277 | 16,127 | 17,877 | 19,778 | 14,088 | 455 | 2,149 | 9,549 |

Like most of our annual student survey responses, student attitudes regarding our physical space took an understandable hit during the pandemic. In fact, in 2021, the Library eliminated two questions directly related to use of our physical space since students did not have any consistent and meaningful access to our space during the previous year. Student satisfaction has been rising from their pandemic lows.

*Table 18: Responses to survey questions about the Library's physical space*

| | | 2019 | 2020 | 2021 | 2022 | 2023 |
|---|---|---|---|---|---|---|
| The library provides sufficient educational equipment to support student research and learning. (Consider things like computer workstations, printers, microfilm reader, photocopier & scanner) | Strongly Agree | 67% | 46% | * | 35% | 40% |
| | Agree | 30% | 35% | * | 45% | 42% |
| | Neutral | 2% | 11% | * | 7% | 8% |
| | Disagree | 0 | 0 | * | .5% | 0 |
| | Strongly Disagree | 2% | 0 | * | .5% | 0 |
| | Don't Know or N/A | 0 | 9% | * | 12% | 9% |
| The library provides adequate access to its services and collections. (Consider things like our hours, Internet access, and services to online & distance learners) | Strongly Agree | 64% | 30% | 34% | 32% | 39% |
| | Agree | 31% | 43% | 27% | 49% | 38% |
| | Neutral | 3% | 15% | 27% | 0 | 14% |
| | Disagree | 0 | 0 | 5% | 7% | 3% |
| | Strongly Disagree | 2% | 2% | 0 | 1% | 0 |
| | Don't Know or N/A | 0 | 9% | 7% | 11% | 5% |
| The library provides a safe, clean and comfortable environment for students to study and do research. | Strongly Agree | 80% | 59% | * | 46% | 54% |
| | Agree | 16% | 26% | * | 33% | 31% |
| | Neutral | 2% | 7% | * | 6% | 5% |
| | Disagree | 2% | 0 | * | .5% | 0 |
| | Strongly Disagree | 2% | 0 | * | 0 | 0 |
| | Don't Know or N/A | 0 | 9% | * | 14% | 9% |

*Question not asked since the Library was physically closed for most of the previous year

Because of the evolving impacts of the pandemic, the Library did not ask our usual question about students' main use of the Library. Instead we asked:

- **2020 question:** What is your main use of the COS Library? (choose one)
- **2021 question:** The Library offers a variety of student support throughout the academic year. Which of the following have you used in Fall 2020, Winter 2021, or Spring 2021? (check all that apply)
- **2022 question:** The Library offers a variety of student support throughout the academic year. Which of the following have you used in Fall 2021, Winter 2022, or Spring 2022? (check all that apply)
- **2023 question:** The Library offers a variety of student support throughout the academic year. Which of the following are the most important to you and your success as a COS student? (check all that apply)

*Table 19: Student survey responses regarding use of services*

| | 2020 (# of responses / % of responses)* | 2021 (# of responses / % of responses)* | 2022 (# of responses / % of responses)* | 2023 (# of responses / % of responses)* |
|---|---|---|---|---|
| Total # of survey responses | 46 | 44 | 188 | 151 |
| Online databases | 21 / 46% | 22 / 50% | 108 / 58% | 102 / 68% |
| Reserve textbooks | 0 | 3 / 7% | 44 / 23% | 86 / 57% |
| Check out books | 1 / 2% | - | - | 56 / 37% |
| Computers/printing | 6 / 13% | - | - | - |
| Quiet study space | 11 / 24% | - | - | 109 / 72% |

## Disaggregated Student Data

Please see Appendix E for the data used to write these summaries.

### *Checkouts*

The Library disaggregated the data about students who checked out library materials. The Library looked at all checkouts in general and reserve, laptop, and calculator checkouts in particular. We used data from January 2020 (our first semester "live" with our new software system) through Spring 2023. It should be noted that the Library did not start to manage the campus laptop and calculator lending programs until Spring 2023.

**Race/Ethnicity disaggregation:** In general, the percent of students checking our materials mirrors overall COS demographics with regards to race/ethnicity. The exceptions are African Americans who check out materials in general, reserve books, and laptops at a higher percentage rate compared to their percent of the overall COS population. The same is true of students reporting "two or more races." White Non-Hispanic and Asian students check materials of all kinds out at lower rates compared to their percent of the overall COS population.

**Gender disaggregation:** In general, the percent of students checking out materials mirrors overall COS demographics with regards to gender.

**Age disaggregation:** In general, students in the 20-24 age group are checking out materials at much higher percentages compared to their percent of the overall COS population. Students up to 19 and 20-24 make up 70-80% of circulation across all categories, while combined they are only 53% of the overall student body. It is unknown whether this is because older students are not aware of what the library has to offer or if they already have, or can afford to buy the materials they need for their classes, or some other factor.

### *Database Logins*

EZproxy Analytics (EZPA) data combined with data from ZogoTech Analytics shows that the race/ethnicity of the students logging into our online collections are similar to the overall student population. The same was not true of gender and age group characteristics. Female students logged in at a higher rate than male students as compared to their percent of the overall COS population. Students in the 20-24 age group also logged in at much higher rates.

Most of the database research assignments the Library is aware of are in English (in particular, ENGL 1001), Early Childhood Education, and Psychology classes. ENGL 1001 demographics with regards to race/ethnicity and gender mirror the overall COS student population, although this class is heavily skewed towards students aged 19 or less. Interestingly, the students identified as majoring in English, Early Childhood Education, and Psychology are primarily female (81% of students) and are much more likely to be in the 20-24 age group than the overall student body (28% of majors vs. 19% of student body). This may explain the differences in the login data, although it should be noted that these majors are also predominantly White Non-Hispanic, Two or More Races, or Not Reported and, other than possibly Two or More Races, this does not appear to have impacted the race/ethnicity percentages of the students logging in.

### *Library Satisfaction*

In Spring 2022 and Spring 2023, the Library added a race/ethnicity question to our Annual Student Survey, which was conducted in partnership with the ASC (2022 and 2023), the OER Workgroup (2022), and Basecamp (2023). Looking specifically at students who self-identified as African American/Black, Latino/a/x / Chino/a/x, or Native American/Alaskan Native, these groups in general reported satisfaction rates that were higher than the rates from all responses. Some exceptions include:

- **African American students** were less satisfied in Spring 2023 regarding library access (survey question 4 (Q4) and library instruction in finding credible sources (Q6).
- **Latino/a/x** students were much less satisfied with the Library's collections in both surveys. They are the only group that had lower satisfaction ratings (compared to the overall rates) regarding the Library as a safe, comfortable environment (2022) and regarding the value of the Library to student success (2022 & 2023).
- **Native American/Alaskan Native** students were less satisfied in 2022 in almost all categories but in 2023 their satisfaction improved to higher than the overall survey rates in all categories.

The survey gives students the opportunity to provide narrative feedback regarding library services. Most students left this optional item blank or made positive comments such as "I feel with my experience with the library you guys do a fine job assisting students" (Latino/a/x student) and "love it"

(Native American/Native Alaskan student). The responses requesting improvement were (the following were copied exactly as submitted in the survey):

**From African American students:**

- Printing should be free if used for school related materials. There should also be a color printer (2022)
- The way the Libary is run right now is good I would only say make sure that the needs for the students is on top of the list so they don't have to struggle and find help (2022)

**From Latino/a/x students:**

- The library is doing a great job! I would like to see a little bit more cleaning, maybe a deep cleaning of things like the carpets once every other month or so. This would help improve the over all quality and cleanliness of the area which is a big factor for me. (2022)
- I wish I had been able to attend a library edtalk  I wish the library could be open more hours. (2022)
- I had a hard time finding relevant, current physical books in the library for my papers. Most of the books I encountered where forty years and older books relating on history. Ended up using a book dating back to the 1960s. (2022)
- More work space! (2023)
- Faster call backs more students to offer help. (2023)

**From Native American/Alaskan Native students:**

- I would like to be able to rent/borrow books for classes taught in Yreka.  I don't like the idea of publishers making so many books and profiting on students needing new books every semester. (2022)
- Access to the information and student helpers on what other sources are available. No live person to chat or talk to, hours do not meet my study hours as I work full time during the day. (2022)
- If the library could provide more hours in some capacity that would make it immensely more helpful. (2022)
- color photo copies of my assignments so I could use a light board to draw a picture on a canvas to water and oil paint for one of my art classes if it wasn't for Jan I would of failed painting and just last week couldn't make the laptop I barrowed from Yreka campus camera work, tech couldn't get it to work so I told Jan my issue in five minutes she made me a web cam to check-out for two hours and said she would sped a few extra min after closing to insure my zoom class went (2022)
- If this is possible, maybe have some way to increase the hours? Without over working anyone. Or have some sort of 24/7 access to certain things besides the drop box. (2023)
- What I would like is being able to buy a book from the library (non textbook) if I would like to. (2023)
- I love the loft, I wish it was available 24/7 (2023)

We have tried to address these suggestions in our Four-Year Action Plan. Offering additional library hours is addressed, although 24/7 access to our space and materials is probably beyond the scope of what we can offer. Researching the possibility of implementing a “zip books” type program is also in the Action Plan and may satisfy the student interested in buying non-textbook books. Improving our collections is a general goal and adding more technology checkouts is an Action Plan item. Free printing

and Yreka Campus pickup for books are already offered and are examples of why additional marketing to students is in our Four-Year Action Plan. After receiving the comment regarding cleanliness in Spring 2022, the Library has been working with our Custodial staff and an outside company for additional cleaning, including the carpet. It is unclear to us what "Faster call backs more students to offer help" refers to.

Students are also given the opportunity to give the Library a "star rating." In general, ratings from these students was similar to overall ratings. Group ratings varied between 4.3 and 4.7 stars; overall ratings were 4.5 (2023) and 4.6 (2022).

African American/Black, Latino/a/x / Chino/a/x, and Native American/Alaskan Native students responded to the survey in numbers that exceeded their overall percentage of the COS student body.

### Non-library survey data

In Fall 2023, the Educational Master Plan team conducted a student and employee survey to collect opinions on various aspects of the college. One question on the survey asked "What do you believe are the greatest strengths of the college?" and allowed respondents to choose all that applied. Out of the 28 available options, "library services" ranked near the top with both groups.

- 28 out of 46 employee respondents (61%) chose "library services" as one of the College's greatest strengths; the only options ranked higher were "helpfulness of staff" (33), parking and Basecamp (both 30), and CTE programs (29); library services were tied with tutoring services.
- 63 out of 121 student respondents (52%) chose "library services" as one of the College's greatest strengths; the only options ranked higher by students were "helpfulness of staff" (85), "student services" (80), "welcoming and well-maintained appearance of campus" (70), and the web site (67); library services were tied with Basecamp services.

The same survey also asked employees and students what areas of the college needed improvement.

- Among employees, the Library received the lowest number of responses out of all 28 options (only one person selected "library services").
- Among students, the Library received the second lowest number of responses out of all 28 options (only three people selected "library services"); the only other option to receive fewer student responses was "fellow students and colleagues."

It is gratifying to see that both our colleagues and students consider the Library and what we offer as a strength and without much need for improvement.

## 5. Progress on Prior Goals

The Library's Four-Year Action Plan had four broad categories, each with identified action steps. While the pandemic forced us to abandon or modify some action steps, progress was made on all goals.

### a) The Library will have adequate staffing to meet our workload needs and provide adequate open hours

While the Library completed most of our action steps, this did not result in adequate staffing levels. The restructuring that took place in early 2020 eliminated a library position; the Library was not

informed of this until long after the fact when we tried to rehire positions. This combined with the challenges of the pandemic were obstacles to meeting the intent of this goal.

### b) The Library will have increased instructional activities for students, including offering a credit-bearing Research Skills and/or Information Literacy course

The Library made great strides in growing our instruction program during this time period. While staff shortages and the pandemic prevented us from launching a credit-bearing course as planned, it will be offered for the first time in Spring 2024. The Library Micro-Courses have been very successful and have significantly increased our instructional reach, which has been especially helpful in light of declining class visits.

### c) The Library will have greater student engagement from developing a student-friendly space, from adapting to the ways students use technology, from increased activities, and through access to resources that meets student needs

Understaffing and the COVID-19 pandemic impeded progress on this goal: most action steps are considered to still be in progress and will be carried forward into our next Four-Year Action Plan. The pandemic did bring with it CARES/HEERF funds which were helpful: most completed action steps involved purchasing, such as furniture, laptops, and movie night equipment.

### d) Increase faculty engagement with the library

While many action steps were completed, the Library still hears from students that they don't hear about library services from faculty. Also, faculty do not often use the library space or services themselves, take advantage of library flex activities, or reach out to us for collaboration. The most successful engagement the Library has had with faculty are collaborations on events held in the Library and the Library plans to continue looking for opportunities to do this. The Library will also include reviving the Library Advisory Committee in our next Four-Year Action Plan, since this avenue has not yet been explored.

### e) Improve our collections

The Library made several steps towards improving our collections. Students are excited about the circulating textbook collection developed during the pandemic and the e-textbooks the Library has been able to provide. The Library did not make any progress towards creating a collection development plan for the Mount Shasta Collection or the college "archives"—the pandemic made other actions a higher priority—and so these activities will continue onto our next Four-Year Action Plan.

Details about actions steps taken are included in Appendix G.

## 6. Closing the Budget Loop

Other than requests for funds related to hiring or additional compensation for employees, the Library has been successful in the last four years with regard to extra funding requests. These funding requests are primarily submitted during the Program Review process or budget development as CQIPs. Examples of successful CQIP requests from the last four years include:

- The Library has received adjunct funding so that a librarian can be reasonably available during the summer and/or winter sessions
- The Library received funds to improve our technology, such as laptops for student use in the Library and equipment for movie nights and other events
- The Library has received funds for furniture upgrades
- The Library has been able to add science databases, filling a gap in our database collection
- The Library was granted a small increase in our budget to hire student employees

Unsuccessful requests for staffing were addressed section 2. *External Factors with Significant Impact: Staffing Challenges*.

In our AY22-23 Annual Update, the Library requested funds for:

1. A 244-day librarian contract *(CQIP unsuccessful)*
2. A part-time Library Technician I *(CQIP unsuccessful)*
3. An increase in funds to hire student employees *(CQIP successful)*
4. To conduct a student focus group *(CQIP withdrawn: funding found elsewhere)*

The Library did not receive funds for the longer librarian contract or to restore a part-time position, which made the additional student employee funds very helpful. Our FY22-23 funding for student employees ($3,181) only covered student employee wages through the Fall semester, so an increase to $8,270 in FY23-24 was very welcome. Student employees provide much needed support to library staff including physical processing of materials, designing displays and advertising, shelving of materials, and assistance with circulation and directional questions.

The Library was able to conduct two focus groups in Spring 2023 using funds from Guided Pathways to purchase food during the sessions and participation incentives. The focus groups were conducted by JT Tarantino and Makenna Rivers in Planning, Assessment & Research. While the focus group information was interesting, unfortunately it was often not specific enough for the Library to have clear direction on ways to improve. Key general takeaways from the focus groups were that:

- Students are interested in opportunities for fun ways to interact with the Library, both in terms of our collections and activities/events
- The Library needs to do more marketing since many students did not realize that we already offer services they wanted
- Students are not learning about library services from their instructors, which is another marketing opportunity
- Students would like more open hours
- Students do not always recognize the value of the Library's collections (vs. the internet)

The Library has addressed these focus group key takeaways in our Four-Year Action Plan.

In addition to the funding requests generated by program review process, the Library also submitted a funding request in the budget development process to increase the amount our budget for circulating textbook reserves. This request was approved using Lottery funds. More information about the impact of circulating textbook reserves is above in section 4: *Library Quantitative and Qualitative Data: Circulating Reserve Textbooks*.

More details about funding requests are included in Appendix H.

## 7. Four-Year Vision

The Library will move from surviving to thriving by providing expanded and improved supports for student engagement and success.

## 8. Four-Year Action Plan

Over the next four years, from AY2023-24 to AY2026-27, the Library will focus on the following areas to help us to achieve our vision:

a) The Library will have adequate staffing
b) The Library will have increased instructional activities
c) The Library will have greater student engagement
d) The Library will increase marketing of our space, collections, and services to students
e) The Library will have greater faculty engagement
f) The Library will improve our collections

### a) The Library will have adequate staffing

The Library needs more staff in order to meet our basic workloads needs and to increase instructional offerings, the number of engagement activities offered (movie night events, etc.), and open hours.

#### *Action Steps*

- Increase number of staff working in the Library by adding a part-time classified position by the end of AY26-27
- Increase the Faculty Librarian contract from 195 to 244 days by the end of AY26-27
- Learn more about the "50% Law" (California Education Code §84362) and how the Library fits in with this: can we strengthen our arguments for these positions and benefit the college?

#### *How success will be measured*

- The Library has fewer closures due to staff shortages (as compared to years where we functioned with just two staff members; statistics started to be kept in AY23-24)
- The Library is able to exceed the number of new micro-courses and EdTALKS created/offered (see "increased instructional activities" goal for details)
- Increase of any amount of additional open hours, including additional "special occasion" hours (midterms, Thanksgiving break, etc.), evening hours, earlier morning opening hours, etc.
- Student satisfaction on our annual survey will increase from Spring 2023 levels, especially on questions 3, 4, and 6

### b) The Library will have increased instructional activities

The Library will continue to grow our instructional offerings, which allows us to support the college's mission of offering "inclusive and practical learning experiences that are relevant in today's global economy and environment" and inspiring students to "engage actively, question deeply, reason critically, think boldly, communicate effectively, act innovatively, work collaboratively, and live ethically."

### *Action Plan*

- Offer LIBR 1001 (1 credit) at least once by the end of AY24-25
- Determine viability of a 3-credit information literacy course which would meet the criteria for our new local GE pattern (Area 5) and CSU-GE (Area E), which cover Lifelong Learning & Self-Development, by the end of AY24-25; submit curriculum as needed by the end of AY26-27
- Review and revise the Library's three student learning outcomes by the end of AY26-27
- Expand the Library Micro-Courses by adding one new micro-course or significantly revising an existing micro-course every semester
- Expand library EdTALKS by adding one new EdTALK each academic year
- Investigate collaboration with COLL 0600, such as whether the Library can be an allowable study space and research appointments an allowable activity (similar to meeting with an academic coach/tutor) by the end of AY24-25
- Offer student research appointment booking by the start of AY24-25

### *How success will be measured*

- The Library will have more instructional offerings for students by meet our goals for LIBR 1001, Library Micro-Courses, and EdTALKS
- The Library will have more micro-courses that align to our updated SLOs than at the end of AY22-23 (5 out of 11 micro-courses)
- The Library will have at least one opportunity to interact with COLL 0600 students (other than EdTALKS or LMC's)
- Student satisfaction on our annual survey will increase from Spring 2023 levels on questions 3 and 6

## c) The Library will have greater student engagement

The Library would like to increase student engagement, a phrase which has many definitions. In this context, the Library is interested in interacting with students outside of direct support for classroom assignments, but within the scope of the Library's mission, so that students build positive associations with the Library. This positive relationship is intended to make students feel like the COS Library is a place where they belong and where they feel comfortable visiting and/or asking for academic support when needed. Hopefully this college experience will also make students feel like libraries in general are a place where they belong and a place that can support their life-long learning and recreational needs.

The Library has broken this lofty goal down into actions such as activities and events, actively seeking student input, and by creating a student-friendly space.

### *Action Steps*

- Offer one event each semester, such as movie nights, poetry/open mic nights, concerts, talks, and exhibits (i.e. something bigger than the standard library book display)
- Increase student club use of the Library for meetings and events to at least one per semester (in addition to Club Spectrum meetings, which already use the study room)
- Identify ways to engage with online students such as through a newsletter or online displays
- Continue to upgrade our physical space, ideally with student feedback, by making one new change to our space every academic year, such as new furniture, new décor, significant

reconfiguration of existing furniture, creation of solo study areas or a standing desk, improvement of entrance, etc.
- Research ideas for making our space friendlier to students with disabilities by the end of AY23-24; implement at least three ideas by the end of AY26-27
- Increase recreational use of our collections (see "improve our collections" section for details)
- Replace student desktop computers, which are from 2014, by the end of AY24-25
- Include students on the Library Advisory Committee (see "increase faculty engagement" section)

### *How success will be measured*

- The Library's gate count will have increased back to AY19-20 levels by the end of AY26-27
- Student satisfaction on our annual survey will increase from Spring 2023 levels on questions 2, 5 and 7; data will be disaggregated by Student Access Services (SAS) enrollment if possible

## d) The Library will increase marketing of our space, collections, and services to students

### *Action Steps*

- Send out a minimum of one social media post per month during the Fall and Spring semesters advertising our space, collections, and services (not events)
- Create marketing materials targeting specific audiences such as SAS students, Hispanic students, Yreka-based students by the end of AY25-26; include specific measurement(s) of success in planning
- Advertise Library mini-visits at the beginning of the semester to provide a 5-minute overview of library collections and services
- Improve Library signage within the Library (reference, etc.) and in the LRC lobby, perhaps in partnership with other LRC areas (ASC, Basecamp, Career Center) by the end of AY26-27; consider signage for the stacks to aid with browsing
- Provide textbook marketing materials for the Bookstore every semester starting with Fall 2024
- Design at least one marketing effort each academic year for Lodge students regarding Library space, collections, and services

### *How success will be measured*

- The Library's gate count will have increased back to AY19-20 levels by the end of AY26-27
- Materials circulation will increase from AY22-23 levels; this overlaps Goal F regarding improved collections
- Student satisfaction on our annual survey will increase from Spring 2023 levels on question 7; data will be disaggregated by target marketing audience if possible

## e) The Library will have greater faculty engagement

Faculty are a key Library user group. Our collections and services are designed to support their students and curriculum and they are an important connection point between the Library and students.

### *Action Steps*

- Develop an annual faculty survey and implement by the end of AY24-25; include benchmark for determining faculty satisfaction with library services

- Partner with Flex Committee to update the pre-approved Flex book and video lists
- Update the Library information in the New Faculty Canvas course by June 30, 2024
- Revive the Library Advisory Committee for the start of AY24-25
- The Library will consult with Theatre faculty by the end of Spring 2024 and develop a plan with timeline for project completion (or abandonment)
- The Library will consult with Music faculty by the end of Spring 2025 and develop a plan with timeline for project completion (or abandonment)
- The Library will seek partnerships with faculty for at least one library event each academic year

### *How success will be measured*

- When surveyed, Faculty will express satisfaction with library services
- The Library will have faculty input or participation in at least one engagement effort each semester

## f) The Library will improve our collections

### *Action Steps*

- Research pulling fiction books into their own section by the end of AY24-25; create implementation plan by the end of AY26-27 (if needed)
- Start game checkout by the end of AY23-24; purchase at least 5 new games by the end of AY24-25; determine circulation success metrics based on the number of games we have available
- Research offering a "library of things" for student checkout, including best practices for this type of collection and what types of items students want, by the end of AY24-25; create implementation plan by the end of AY25-26 (if needed)
- Research offering a "zip books" program, similar to the county library system by the end of AY24-25; create implementation plan by the end of AY25-26 (if needed)
- The number of laptops available for semester loan will increase to 100 by the end of AY26-27
- Increase the number of technology peripherals available for in-library use and for checkout, such as laptop charging cables, charging/connection adapters, speakers, noise cancelling headphones, standard/trackball/touchpad mice, rolling backpack, special keyboards, podcasting microphone; purchase and start circulating at least three new technology peripherals by the start of Fall 2024
- By the end of AY25-26, determine if the Library should keep or expand interlibrary loan (ILL) services by analyzing lending/borrowing statistics, estimated staff time on day-to-day activities (current and estimated if expanded), estimated staff time in integrating ILL into Alma if expanded, and estimated shipping costs of expansion
- The Library's database collection at the end of AY26-27 will be at a similar level of quantity, quality, and coverage to AY23-24, with appropriate adjustments made to adapt to curriculum needs
- Create a collection development plan for the college "archives" that takes into account staffing and budget considerations by the end of AY26-27
- Create a collection plan for the Mount Shasta Collection that takes into account staffing and budget considerations by the end of AY26-27
- Create and implement an accessibility plan for handling database article and ebook accessibility issues and to make the courtesy textbook scans we provide accessible by the start of Fall 2024

### *How success will be measured*

- The Library will not have a laptop wait list of more than 10 students
- If the Library creates a fiction area, circulation statistics for these materials will increase from the levels in the two academic years prior to the move
- If the Library starts a circulating collection of “things”, games, and/or technology peripherals, the Library will determine what level of usage is successful and track circulation statistics
- If continued, ILL borrowing statistics will increase
- Overall database use statistics will, at a minimum, hold steady at AY22-23 usage levels
- Student satisfaction on our annual survey will increase from Spring 2023 levels on questions 1 and 2

## 9. Conclusion

The COS Library is doing well in light of the challenges of the past four years. We use a variety of methods to fulfill our mission to support student learning and college employees. In doing so, we also support the mission of the college and are meeting accreditation requirements. While we are doing well, we are often in “survival mode”: due to low staffing we cannot do much beyond the basics. In order to thrive, the Library will need more staff and continued funding support. We have identified several areas where we can improve, expand, and adapt in order to to meet our campus community’s needs in the four years ahead.

## Appendix A: ENGL 1001 Discussion Assessment Data

*Table 20: Online ENGL 1001 student success at identifying keywords & finding database articles (by semester)*

| Assessment metric | Fa'21 | Sp'22 | Fa'22 | Sp'23 | Totals |
|---|---|---|---|---|---|
| # of students able to locate 2 articles in the library databases^ | Yes: 46<br>No: 0 | Yes: 7<br>No: 2 | Yes: 23<br>No: 3 | Yes: 14.5<br>No: 2 | Yes: 90.5<br>No: 7 |
| % of students able to locate 2 articles in the library databases* | 100% | 78% | 88% | 85% | 92% |
| # of students able to identify reasonable keywords for their topic | Yes: 39<br>No: 3<br>No attempt: 4 | Yes: 7<br>No: 0<br>No attempt: 2 | Yes: 14<br>No: 1<br>No attempt: 11 | Yes: 14<br>No: 0<br>No attempt:4 | Yes: 74<br>No: 4<br>No attempt: 21 |
| % of students able to identify reasonable keywords for their topic* | 93% | 100% | 93% | 100% | 95% |

**^** Students we count as a "yes" worth .5 if they only supplied one article; they were counted as 1 person for percentages

***** Percentages reflect the percent of students who attempted to choose keywords

## Appendix B: ENGL 1001 Post-Class Visit Survey Data

*Table 21: Student evaluations after in-person class visits*

| Survey Question | Strongly Agree | Agree | Neutral | Disagree | Strongly Disagree | I already knew how to do this | I was not in class that day |
|---|---|---|---|---|---|---|---|
| The Library visits helped me to feel confident that I can get to the Library web site and databases page | 34<br>59% | 18<br>31% | 4<br>7% | 0 | 0 | 2<br>3% | 0 |
| The Library visits helped me to feel confident finding articles in EBSCO | 34<br>59% | 22<br>40% | 1<br>2% | 0 | 0 | 1<br>2% | 0 |
| The Library visits helped me to feel confident choosing keywords for a topic | 29<br>50% | 16<br>28% | 11<br>19% | 0 | 0 | 2<br>3% | 0 |
| The Library visits helped me understand how search techniques such as using **“ “**, *****, and **OR** can improve search results | 26<br>45% | 22<br>40% | 6<br>10% | 2<br>3% | 0 | 1<br>2% | 1<br>2% |

## Appendix C: Library Micro-Course (LMC) Data

*Table 22: Library Micro-Course & Student Learning Outcomes (SLOs)*

| Micro-Course name | Starting semester | SLOs | Library SLO(s) the LMC supports |
|---|---|---|---|
| COS Library Basics | Sp'22 | • The ways the Library supports students<br>• How to contact the Library with questions or for research help | SLO 1 |
| Getting Started with Library Research | Sp'22 | • How information ends up in the Library in the form of articles and books<br>• When to use the library catalog and when to use a database for a research project<br>• How to choose a database for a research project<br>• How to get research help | SLO 1 |
| EBSCO Database Basics | Sp'22 | • Basic navigation of EBSCO<br>• How to locate and use common EBSCO features and tools<br>• How to open the full text of an article so that you can read it | SLO 1 |
| EBSCO Hands-On Practice | Su'22 | • apply what you learned in the EBSCO Article Database Basics micro-course by taking a guided tour of EBSCO features | SLO 1 |
| Keyword Searching Basics | Fa'22 | • Why keyword searching is important when using library databases<br>• How to choose basic keywords for a topic | SLO 1 |
| Scholarly Conversation, Plagiarism & Why We Cite | Fa'22 | • What "scholarly conversation" means and how you can participate<br>• What plagiarism is and how to avoid it<br>• The importance of citing sources in your academic work | (none) |
| Summary, Paraphrasing & Direct Quotes | Fa'22 | • The basic characteristics of summary, paraphrasing and direct quotes in order to avoid plagiarism<br>• How to recognize "common knowledge" | (none) |
| APA In-Text Citations Overview | Sp'23 | • The purpose of APA style<br>• How to recognize and use signal and parenthetical in-text citations<br>• How to assemble a correctly formatted APA in-text citation | (none) |
| APA In-Text Citations: Direct Quotes, Multiple or No Author(s) & No Date | Sp'23 | • Assemble a correctly formatted APA in-text citation that has no named author, multiple authors, no date, or no pages | (none) |
| APA Reference Citations Overview | Sp'23 | • Recognize the elements of an APA citation<br>• Assemble a correctly formatted APA citation | (none) |
| APA Style Formatting | Sp'23 | • Identify the correct formatting rules for margins, spacing, and page numbers in an APA paper<br>• Identify the correct formatting rules for an APA title page and References list | (none) |

*Table 23: Library Micro-Course completions & quiz scores that support SLO#1*

| Micro-course name | Starting semester | Number of completions | Average quiz score* |
|---|---|---|---|
| COS Library Basics | Sp'22 | • Sp-Su'22: 19<br>• Fa-W'22: 62<br>• Sp-Su'23: 57 | • Sp'22: 9.29<br>• Fa-W'22: 9.34<br>• Sp-Su'23: 8.62 |
| Getting Started with Library Research | Sp'22 | • Sp-Su'22: 14<br>• Fa-W'22: 62<br>• Sp-Su'23: 55 | • Sp'22: 9.09<br>• Fa-W'22: 8.89<br>• Sp-Su'23: 8.51 |
| EBSCO Database Basics | Sp'22 | • Sp-Su'22: 14<br>• Fa-W'22: 51<br>• Sp-Su'23: 46 | • Sp'22: 9.00<br>• Fa-W'22: 9.09<br>• Sp-Su'23: 8.72 |
| EBSCO Hands-On Practice | Su'22 | • Sp-Su'22: 0<br>• Fa-W'22: 35<br>• Sp-Su'23: 31 | • Sp'22: n/a<br>• Fa-W'22: 8.8<br>• Sp-Su'23: 8.29 |
| Keyword Searching Basics | Fa'22 | • Sp-Su'22: n/a<br>• Fa-W'22: 31<br>• Sp-Su'23: 25 | • Sp'22: n/a<br>• Fa-W'22: 8.94<br>• Sp-Su'23: 8.81 |

*Quiz scores have a total of 10 possible points

*Table 24: Student participation in the Library Micro-Courses*

| Time period | Number of unique student participants |
|---|---|
| Sp-Su'22 | 23 |
| Fa-W'22 | 98 |
| Sp-Su'23 | 122 |

## Appendix D: Database Statistics

*Table 25: Library ebooks receiving more than 10 uses from January 2021 - December 2023*

| Ebook Title | Supplier | Circulation |
|---|---|---|
| Nutrition for Healthy Living | ProQuest | 7900 |
| We the People | ProQuest | 4394 |

## Appendix G: Progress on Prior Goals Action Plan Details

The Library's Four-Year Action Plan had four broad categories, each with identified action steps. While the pandemic forced us to abandon or modify some action steps, progress was made on all goals.

### a) The Library will have adequate staffing to meet our workload needs and provide adequate open hours

*Table 32: Progress made towards Four-Year Action goal regarding staffing*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Determine positions the Library needs by the end of February 2020 | Complete |
| Write job descriptions and submit CQIP(s) as needed | Complete |
| Fill position(s) by June 30, 2020 (Marcia retires at the end of Spring 2020) | Complete: Position filled Feb. 2022 |
| Investigate extrapolated statistics-keeping by the end of Spring 2020; implement by Fall 2020 | Complete: The Library decided to continue with actual statistics-keeping but using an improved tracking method |
| Realign survey/statistics questions as needed between Annual Student Survey, TutorTrac, Library SLOs, CCCCO Annual Data Survey, IPEDS, ACCJC Accreditation standard IIB, Noel-Levitz, CSSE, etc. by Fall 2020 | Complete |
| Schedule twice-a-semester meetings with the Library's administrator to aid communication | Complete: The Library meets regularly with current administrator as needed throughout the semester; a formal schedule will be adopted if needed |

### b) The Library will have increased instructional activities for students, including offering a credit-bearing Research Skills and/or Information Literacy course

*Table 33: Progress made towards Four-Year Action goal regarding instruction*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Update existing instructional materials. Materials related to the library catalog need to updated and replaced in Spring 2020. Develop a project list of other needed or anticipated updates by the end of Spring 2020 with target dates for completion. | In progress: Some materials were made but not nearly as many as we hoped for |
| Submit curriculum for at least one credit-bearing class by January 31, 2021 | Complete: Curriculum submitted in 2020; LIBR 101 will be offered for the first time in Spring 2024 |
| Student employee supervisor will complete local Canvas training by June 30, 2020 | Complete: Faculty librarian took over supervising students after previous supervisor retired; the |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| | Canvas module has been a great tool for new student employee training |
| Expand student employee training program in Canvas to include a Customer Service badge by December 31, 2020 | In progress: Customer service training was added to the module but staff lacks the time to formally badge it using Canvas Credentials |
| Investigate whether or not the Library can access individual use statistics for our online collections with the new LSP, the switch to single sign-on, or using the new EZproxy Analytics product (this data is not currently available to us). Learning more about student use of online materials may shine a light on other areas where we can improve | In progress: Staff shortages and the unexpected windfall of having access to EZproxy Analytics have delayed us from fully investigating LSP options; EZproxy Analytics provided some very useful data (included elsewhere in this program review) but the cost was not sustainable |
| Revise the Library's SLOs | Not yet started: The Library hoped to receive support on this from the SLO Committee but that group did not form until Spring 2023 |
| Look for ways this general goal might support Guided Pathways efforts on campus | In progress: The Library's micro-course program was developed using Guided Pathways feedback |

*Table 34: Additional actions taken to meet the Four-Year Action goal regarding instruction*

| Additional action steps taken to support Goal b) | Description |
|---|---|
| Launched the Library Micro-Courses | These self-enrolled, self-paced, asynchronous Canvas courses provide information to students on library, research, and information literacy topics. Courses are considered EdTALKS for extra credit assignments and are sometimes assigned by instructors. Each course is designed to be completed in about 15 minutes. The Library had created eleven micro-courses by the end of Spring 2023. |
| Redesign of the Research Help web page | The Library redesigned the Research Help page to be more user-friendly, which will be especially important as the quantity of resources goes up. More video tutorials and handouts have been created or curated to add to this collection of resources. Many have also now been integrated into the Articles & Databases page so that students have convenient access at a potential point of need. |
| Creation of a Textbook web page | The Library also created a Textbook web page to raise awareness of textbook support and options on campus, including Zero Textbook Cost (ZTC) classes and library ebooks. |

| Additional action steps taken to support Goal b) | Description |
|---|---|
| Increased access to Zoom drop-in hours | The Library's drop-in Zoom hours were cross-listed on the ASC's Tutor page to increase student awareness of our services. The ASC eliminated this page in Fall 2023. |

### c) The Library will have greater student engagement from developing a student-friendly space, from adapting to the ways students use technology, from increased activities, and through access to resources that meets student needs

#### *General*

*Table 35: Progress made towards Four-Year Action goal regarding general student engagement*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Conduct a student focus group about ways the library can better engage with and support students, including Library hours during all semesters | Complete: The Library partnered with Institutional Research to conduct the focus groups. Recruiting participants was difficult and in the end, all were student athletes from EDUC 0670 (now COLL 0600). |
| Refresh marketing materials promoting the Library space, collections, and resources | In progress: The Library ran a "We're here for you" social media marketing campaign in Spring 2021 and has done marketing for individual events. Sustained general marketing did not happen |
| Look for ways this general goal might tie into Institutional Master Plan Focus Area 3 (Engagement) and might support Guided Pathways efforts on campus | In progress: The Library tried multiple engagement ideas in AY22-23: monthly fiction displays; Women In Science event, National Library Week movie night (arranged for some course extra credit). Success varied. Engagement events are time-consuming to put together and staff shortages limit what we can do; funding can also be difficult to find |
| Research academic library student engagement to generate new ideas | Not yet started |
| Maintain AY2018-19 gate count in AY2019-20. Increase gate count and the number of unique student visitors (TutorTrac) by 3% in each subsequent academic year. | Abandoned due to the closure of the Library during the pandemic |
| Work with the ASC to re-allow EDUC 0670 students to study in the Library | In progress: While not much progress was made during this time period, the Library is still working on this. EDUC 0670 was changed to COLL 0600; COLL 0600 students will hopefully be able to complete some required study hours in the Library starting in AY23-24 |

*Table 36: Additional actions taken to meet the Four-Year Action goal regarding general student engagement*

| Additional action steps taken to support Goal c) | Description |
|---|---|
| Eliminate overdue/late fines | Many academic libraries are eliminating overdue fines as a way to remove barriers to library use and be more equitable. The COS Library is in the progress of going fine-free: AP 4040 was updated; once AP 5030 has passed the Board we will be officially be "fine free," eliminating overdue/late fines on all circulating materials, including reserves, and the processing fee on unreturned/damaged materials. |
| Semester-long checkouts | In researching the elimination of fines, the Library found several studies that indicated longer checkout periods could also eliminate a barrier that prevents some students from using the Library. The Library has implemented semester-long checkout periods for "regular" books since the pandemic started and intends to continue. Circulating textbooks also check out for the semester. |

## *Develop a student-friendly space*

*Table 37: Progress made towards Four-Year Action goal regarding a student-friendly space*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Continue to replace old, uncomfortable furniture with new furniture | Complete: Library has replaced all wooden chairs, added a couch and bean bag chairs, and purchased new tables for the Lounge (on wheels for easier event setup). Lounge tables, which were in better condition, replaced all tables downstairs. An adjustable-height desk was purchased to make the scanner/catalog computer accessible. New tables were purchased for LRC 9 and the back corner area. A seating cube with desk arm was purchased for the stacks. Basic updating is now complete; specific student feedback is needed to determine what else students would like to make the space more desirable |
| Give our aging space a boost with fresh paint in certain areas such as the window bays, window sills, railings and the study room | In progress: Painting the orange trim in the Library was cost-prohibitive. Paint in other areas is on hold until we have a larger re-design plan |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Develop LRC 9 into a multipurpose technology room that can be used as an overflow study/testing room (and can still be combined with LRC 8 for large groups) | Complete: LRC 9 is now available as a multipurpose room for group study, Zoom meetings, and video viewing. It will still also be used as a local history research space. |
| Determine ways the library can be zoned to have both quiet study areas as well as areas that do away with the "hushed" stereotype in order to meet a variety of student study preferences; consider enclosed study cubbies or small study rooms (for solo quiet), and/or a glass barrier wall for the Lounge | Complete: Made inquiries in Spring 2022. Zoning does not appear to be an option right now. The idea of solo study cubbies is still being considered |
| Investigate how to better reach Hispanic students on campus in order to increase their use of our space | Not yet started |

## *Adapting to the ways student use technology*

*Table 38: Progress made towards Four-Year Action goal regarding student use of technology*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Investigate student preferences and implement a way to contact the Library by text, chat, or other methods | Complete: Text, chat and Zoom contact methods have all been added. Use is being tracked to determine student preferences. Zoom drop-in hours are rarely used: most students request a Zoom appointment; consider adding a calendar/booking option for research appointments. |
| Acquire more laptops; when desktop computers are due for replacement, consider replacing some with laptops (current library computers were installed in 2014) | In progress: A couple new student laptops for in-library use have been purchased. The library requested Instructional Equipment funds to replace our aging desktop computers (ca. 2014); request has been merged into the campus-wide student computer lab "refresh" process. Faculty librarian is on the "refresh" committee |
| Acquire Chromebooks specifically for Proctorio testing | Complete: Chromebooks are no longer support by Technical Services. Laptops with similar capabilities were purchased instead |
| Acquire portable chargers for phones and other devices. Possibly include ones for laptops too since there is a shortage of electrical outlets | Complete |
| Investigate student preferences about a computer workstation that can be both wheelchair accessible and serve as a standing workstation | In progress: Library purchased an adjustable-height desk for scanning/catalog computer. So far, no students have opted to try using it as a standing desk. Consider putting an unused staff |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| | adjustable height adapter in the student computer area |

### *Increased activities*

*Table 39: Progress made towards Four-Year Action goal regarding increased activities*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Increase the amount of Student Club use of the library | In progress: Negatively impacted by the pandemic. Clubs are starting to revive, so hopefully work on this will resume. Prior to the pandemic, the Library sent invitations to all the advisors of Student Clubs inviting them to use the Lounge for club meetings; no one responded. The Lodges and ASB have sometimes used the Lounge for movie nights |
| Start offering Library-sponsored activities such as speakers, movie nights, craft/maker activities, game nights, local history exhibits, and student art shows | In progress: The Library is limited in our ability to do this due to staff shortages. The Library offered two events in Spring 2023: a Women In Science Night (movie showing followed by panel discussion) and a National Library Week movie night (*The Public*). Women in Science was well attended; *The Public* was not, even though several classes offered extra credit for attending |
| Reassess current technology used for movie nights (some of the technology is old and has been problematic) | Complete: New equipment was purchased |
| Consider offering "special occasion" hours such as during Thanksgiving and Spring Breaks and the Sunday before finals | In progress: In AY22-23, the Library was open the Sunday before finals both semesters (noon-7:00 p.m. with tutor available), as well as open late (until 8:00 p.m.) the week of finals. Attendance was low. Doing this again is planned for AY23-24 |
| Participate in the Student Success Seminars again (if the ASC offers this workshop series); considering holding classes in the Library study room | Complete: When the ASC revived their EdTALKS workshop program—formerly known as Student Success Seminars—the faculty librarian volunteered to offer regular EdTALKS. The Library's workshops are offered primarily online via Zoom during the day and occasional evenings. In person workshops in the Study Room are still being considered; the ASC Fishbowl has the advantage of higher likelihood of attendance from COLL 0600 students in the ASC |
| Increase awareness of library services on the Yreka Campus | Abandoned due to the pandemic: The Library does still send textbooks, laptops, etc. to Yreka |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| | as needed. Very few classes are currently being offered there |

### d) Increase faculty engagement with the library

*Table 40: Progress made towards Four-Year Action goal regarding faculty engagement*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Investigate the possibility of transforming LRC 9 into a multipurpose technology room that can be used as a media production space for faculty (among other uses) | Complete: The Library discussed turning LRC 9 into a multipurpose room specifically for a faculty media production space with Maria Fernandez, DL Coordinator, but it was not suitable for that need. It was turned into a general, flexible, multipurpose space instead. |
| Create additional instructional materials to be posted online and in Canvas. Develop a project list by the end of Spring 2020 with target dates for completion. | Complete: The Library updated its video tutorials and handouts page for students ("Research Help"). The Library has created additional instructional materials and has curated a collection of similar materials created by others for faculty to use with their students. Faculty content is being housed on our Services to Faculty site. |
| Create an online flex activity for faculty that teaches them about library collections and services by the start of January 1, 2021 | Complete: This action step was modified. when we had the opportunity to purchase a subscription to AVON for a limited time The faculty librarian created an online, self-enrolled flex activity so that faculty could learn about our streaming video collections Films On Demand and Academic Video Online. Money to pay for the time to create the flex activity were included in the CARES/HEERF funding request for AVON. This activity was not considered successful since no faculty participated |
| Offer updates and presentations on our new LSP "discovery system" in Spring 2020 | Complete: The Library offered an overview of the new LSP to faculty during the Spring mandatory Flex Day (May 22, 2020) |
| Participate in any training offered for adjunct faculty, either online or in person | In progress: A new faculty Canvas training program was launched in FY22-23. The Library was not consulted about content but there is some info in there. We contacted Academic Affairs about updating our content but have not heard back |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Determine faculty library needs through a general survey, focus group, or reintroduction of an Advisory Committee | Not yet started: The Library Advisory Committee was brought back to provide feedback on the LSP during initial set-up but has not met since. No other efforts have been made to determine faculty needs |
| Market the Library space to faculty such as for meetings and adjunct work space | Complete: The Library updated its information in the Faculty Handbook, including mentioning it as a space for adjuncts to work and meet with students |
| Look for ways to collaborate with faculty on specific projects that will benefit their area (as Library time/staffing allow). Finish the current project with the Music faculty | In progress: The pandemic and loss of faculty (Music) stalled work on two partnership projects started before the pandemic with Music and Theatre faculty. The Library has successfully partnered with COMS and ART faculty to offer free printing for student assignments (specifically Small Group Communication final project presentations and printing images for use in Painting/Drawing classes). The Library partnered with Science to start and maintain pandemic funding for JoVE (science database); the Library negotiated a fantastic parting price and was able to provide Science faculty with one last year of access using windfall funding. The Library also partnered with Science faculty for the Women in Science event. |
| Investigate ways we can collect better use statistics of online collections and resources by faculty | In progress: EZproxy Analytics can separate student from staff use. Alma (LSP) data has yet to be explored |
| Start regular meetings with the ASC Coordinator and Basecamp Coordinator to better support each area's efforts and increase communication within the LRC areas directly serving students | Abandoned: Greater collaboration between the Library and the ASC and Basecamp has evolved naturally during this time period, aided by pandemic teamwork. We meet and talk regularly as needed for shared projects |

## e) Improve our collections

*Table 41: Progress made towards Four-Year Action goal regarding collection improvement*

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| Include collection development policies in AP4040 and have AP4040 approved by the Board by June 2020 | Complete: The Library's Collection Development Policy was rolled into the creation of AP4040 (a new AP for our campus); it was approved December 11, |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| | 2020. This version of the policy is more general than originally written but provides the needed collection guidance, including a challenge policy. It was updated in Spring 2023 to eliminate overdue fines and other minor changes |
| Create a collection development plan for the college "archives" | Not yet started |
| Create a collection plan for the Mount Shasta Collection that takes into account staffing and budget considerations | Not yet started |
| Grow collaboration with Siskiyou Count County Libraries to leverage our collections | In progress: The Library worked with Siskiyou County Libraries to update our process. We still need to create formal MOU so that we can handle issues of non-return that involve money |
| Research the need for and determine if funding is available for a science database | Complete: Funding for a science database was approved for AY21-22. The Library started a subscription to EBSCO's *Science Full Text Direct* and *Environment Complete*. It is unclear whether keeping both is financially sustainable |
| Increase book circulation | Abandoned due to the pandemic |
| Look for new ways to track/analyze print circulation: is purchasing print worth the budget? | Abandoned due to the pandemic |
| Increase use of Yreka Reserves | Abandoned: Use of this collection was very low before the pandemic and we were considering discontinuing it if use did not rise. During the pandemic, all books were recalled and used as circulating copies. The Library sends textbooks to Yreka on an as-needed basis; very few classes are currently held on Yreka Campus. The infrequent mail service to Yreka reduces the effectiveness of this service since there can be a long delay in getting items to students. Ebooks are purchased whenever possible and serve students in all locations (although it is not many students preferred format and some live in areas with poor internet). The Library currently offers free mailing/return shipping for all circulating physical items including textbooks. The best ways to serve Yreka |

| Action steps from AY19-20 Four-Year Plan | Progress made |
|---|---|
| | Campus/North County students should be re-visited in the next Four-Year Action Plan. |

*Table 42: Additional actions taken to meet the Four-Year Action goal regarding collection improvement*

| Additional action steps taken to support Goal e) | Description |
|---|---|
| Free mailing services | To improve access to our physical collections, the Library now offers free mailing services to students who do not have access to the Weed or Yreka Campuses. Students are also supplied with a free return shipping label so that all mailing costs are free for them. Most materials mailed are textbooks |
| Purchasing e-textbooks | The Library has begun to purchase e-textbooks whenever possible. These are expensive, especially for materials from traditional textbook publishers such as McGraw-Hill. Many textbooks are not yet available to libraries as ebooks. E-audiobooks are also being purchased when they are available to provide students with options that may better suit their learning preferences. The ebook use statistics are fantastic; e-audiobook has thus far been light.<br>These ebooks are very expensive. It is unclear whether the College will continue to support a collection of circulating reserve books now that CARES/HEERF funds are gone (they were used to make the initial purchases). The e-audiobooks are also getting low use and the subscription model used by this vendor (OverDrive) does not suit our needs very well. Continued access to this collection also needs to be reconsidered. |
| Faculty as campus OER Liaison | The faculty librarian volunteered to be the new campus OER Liaison. This has prompted increased coordination with the Bookstore, more involvement with faculty, and additional outreach activities for students (such as the Textbook Connection EdTALK). This has also provided the Library an opportunity to raise awareness about ZTC library ebook textbook options. |

# Appendix H: Closing the Budget Loop Details

*Table 43:Tracking Whether CQIP Requests Submitted During Program Review were Funded, 2017-2023*

| Program Review Year | Type of Program Review Request* | Submission Year | Funding request | Amount requested | FY when funded | Type of funds^ | notes |
|---|---|---|---|---|---|---|---|
| Jan. 2018 | AU | AY17-18 (covers AY16-17) | Library evening hours backup plan | [10 hrs classified overtime] | - | | |
| | | | Faculty Librarian contract | [no specific amount listed] | - | | received adjunct funds for FY18-19 |
| | | | Armchair seating in the Library | $2,000 | funded in future submission | Instruct. Equip. | was submitted as IE funding request in Fall2022 (approved) |
| | | | Sheet music project | $1500 - $3500 | ??? | ??? | we have the supplies but they were not purchased from the Library's budget; funding source unknown (Instruction Office paid?) |
| Dec. 2018 | AU | AY18-19 (covers AY17-18) | Library evening hours backup plan | [10 hrs classified overtime] | - | | |
| | | | Library furniture update | $5,000 | FY19-20 | Instruct. Equip. | |
| | | | LSP migration personnel | [140 adjunct hrs and 260 hrs out-of-class pay for classified] | FY19-20 | District (partial) | |
| | | | Sheet music project | [CQIP in support of Music Dept. student employee funds for project] | FY19-20 | ??? | this was not in our budget; Music Dept. funded a student for the project (not sure how many hours, etc.) |
| Feb. 2020 | C | AY19-20 (covers AY14-15 to AY18-19) | Adjunct summer hours | $3,942 | FY20-21 | District | |
| | | | Student Chromebooks in the Library | $500 | funded in future submission | | |

| Program Review Year | Type of Program Review Request* | Submission Year | Funding request | Amount requested | FY when funded | Type of funds^ | notes |
|---|---|---|---|---|---|---|---|
| | | | Library evening hours backup plan | [10 hrs classified overtime] | - | | |
| | | | Library furniture update | $5,000 | FY20-21 | Instruct. Equip. | |
| | | | Student laptops in the Library | $3,690 | funded in future submission | | |
| | | | Movie event equipment for the Library | $2,439 | funded in future submission | | |
| | | | Science article database | $4,000 - $5,000 | funded in future submission | | |
| | | | Library staffing concerns | [different staffing options presented; cost varied] | partially funded in future submission | | |
| | | | Student focus group | $0 | n/a | n/a | |
| Dec. 2020 | AU | AY20-21 (covers AY19-20) | Adjunct summer hours | $7,446 | FY21-22 | District | |
| | | | Student Chromebooks in the Library | $500 | FY21-22 | District | purchase modified to laptop since Chromebooks are no longer supported by IT |
| | | | Library Technician job reclassification | $3,512 - $4,071 | FY21-22 | District | |
| | | | Training for new library classified staff | $1,000 | FY21-22 | District | |
| | | | Movie event equipment for the Library | $2,439 | FY21-22 | District | |
| | | | Science article database | $4,000 - 5,000 | FY21-22 | District ($5,000) | |
| Dec. 2021 | AU | AY21-22 (covers AY20-21) | Additional Librarian hours (longer contract or adjunct hrs.) | $9,217 - $22,612 | - | | |
| | | | Adjunct Librarian hours (in case longer contract was not approved) | $17,301 | FY22-23 | District (partial) | |
| | | | Training for new library classified staff | $500 | FY22-23 | District | |

| Program Review Year | Type of Program Review Request* | Submission Year | Funding request | Amount requested | FY when funded | Type of funds^ | notes |
|---|---|---|---|---|---|---|---|
| Dec. 2022 | AU | AY22-23 (covers AY21-22) | 244-day Librarian contract | $25,942 | - | | |
| | | | Part-time library staff position | [no specific amount listed] | - | | |
| | | | District funds for library student employees | $7,750 | FY23-24 | District | |
| | | | Student focus group | $350 | FY22-23 | Guided Pathways | |

## Comprehensive Program Review Signature Page

We the undersign certify that the COS Library program review process included broad dialogue about student learning, program effectiveness and resource allocation.
