**College of the Siskiyous**
**Comprehensive Program Review Two-Year Cycle**
**EMS Program Overview**
**Kirk Thomsen, EMS Director**
**December 2024**

## I. Description of the Program:

The Emergency Medical Services (EMS) program consists of CPR, Public Safety-First Aid, Emergency Medical Responder (EMR), Emergency Medical Technician (EMT), Paramedic, and Bachelor's degree in Paramedicine.

### a) Organization

| |
|---|
| **Full Time Faculty:**<br>EMS Director/Coordinator- *Kirk Thomsen*<br>Paramedic Instructor-*Theresa Gowan, EMT-P* |
| **Adjunct Faculty:**<br>*Constance Duffle, EMT-P* |
| *Randy Boyd, EMT-P* |
| *Jae Johnson EMT-P* |
| *Brian Witherell, EMT-P* |
| *Sean Prouty EMT-P* |
| *Scott Healy, RN* |
| **Administrative Support:**<br>Administrative Assistant- *Monique Gonzalez* |
| Administrative Assistant – *Anne Marie Acord* |
| **Part Time Faculty for this Review Period:**<br>*Multiple Expert Instructional Aids (EIA)* |

### b) Primary purpose:

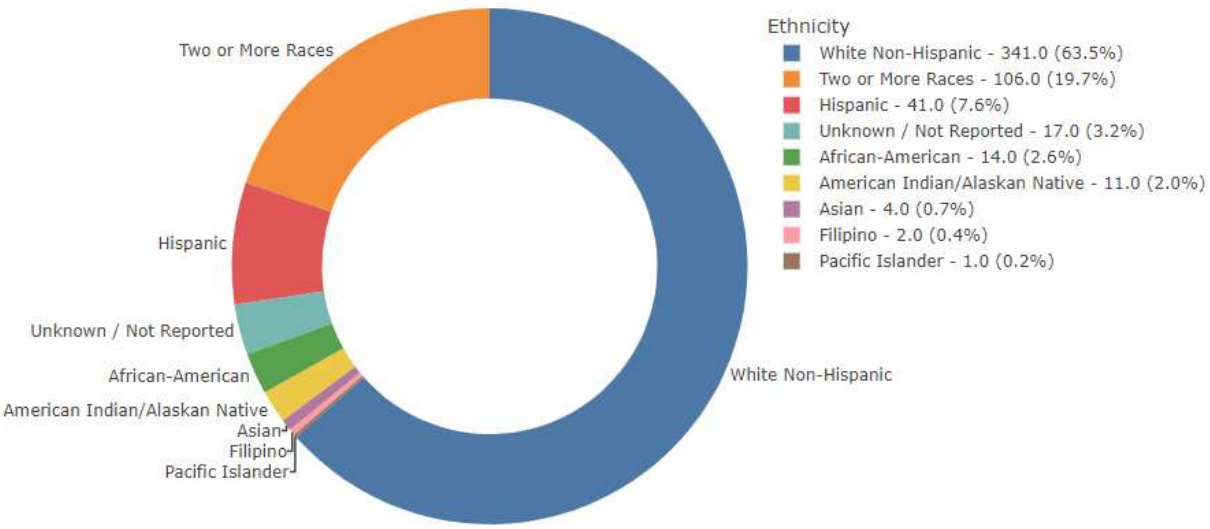
The Emergency Medical Services (EMS) Program trains students to provide immediate care to the critically ill and injured. Paramedics and Emergency Medical Technicians (EMT) determine the nature and extent of illness or injury, provide advanced life support, communicate with other emergency medical services personnel and transport patients to the hospital. This program meets or exceeds all state and national guidelines for paramedic training. Students who successfully complete the requirements for these programs will be prepared for the National Registry examination leading to State certification or license.

**c) Whom we serve include demographics**

Data is for all EMS courses

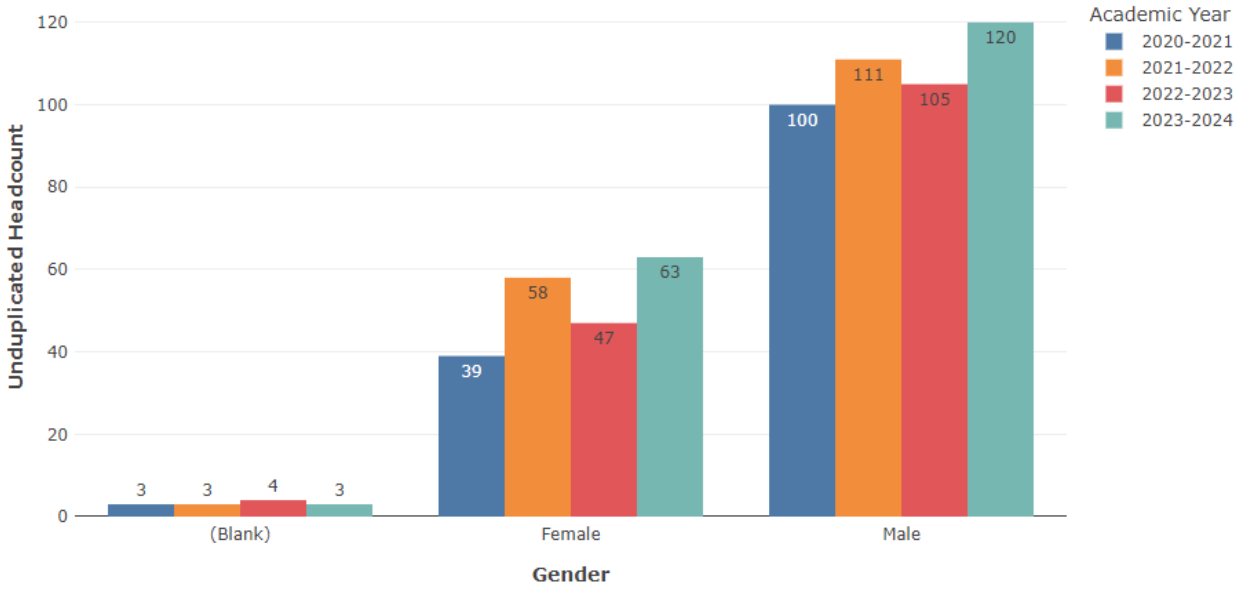
**Below is race/ethnicity data for Program: EMS**

Raw Data: [Enrollment Raw Data Race EMS.xlsx]

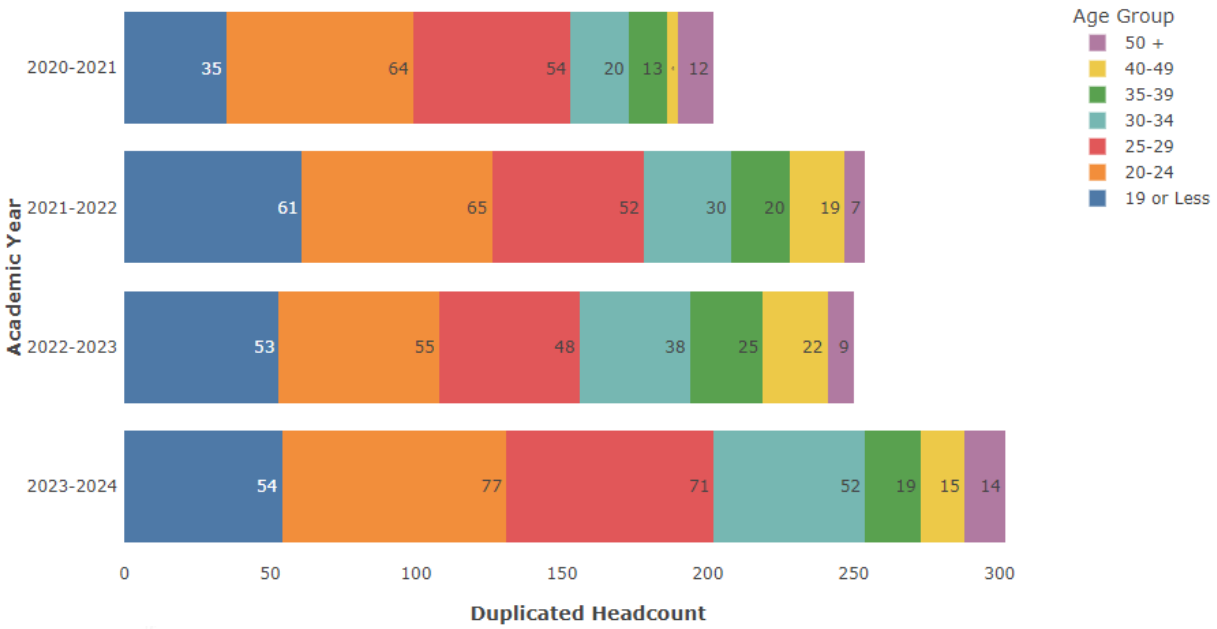


**Below shows gender data for Program: EMS**

Raw Data: [Enrollment Raw Data Gender EMS.xlsx]



**Below shows age data for Program: EMS**
Raw Data: [Enrollment Raw Data Age EMS.xlsx]



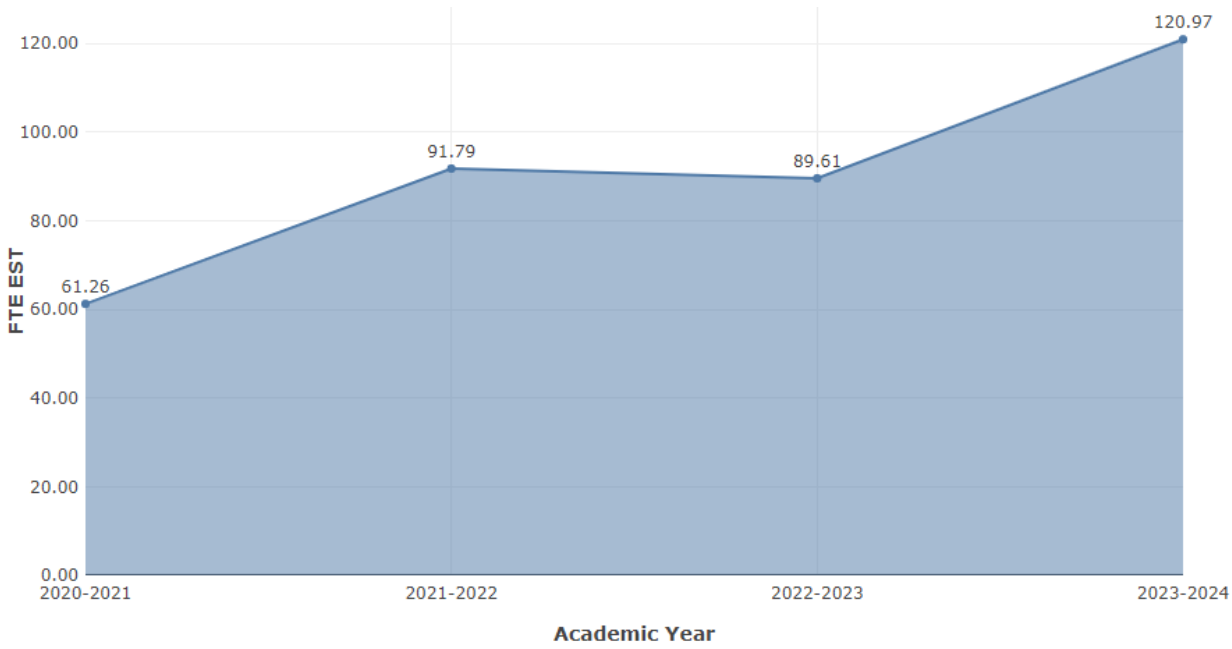
| | Age Group | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | 19 or Less | 20-24 | 25-29 | 30-34 | 35-39 | 40-49 | 50 + | Grand Total |
| Academic Year | Success Rate | Success Rate | Success Rate | Success Rate | Success Rate | Success Rate | Success Rate | Success Rate |
| 2020-2021 | 86% | 91% | 93% | 95% | 77% | 100% | 92% | 90% |
| 2021-2022 | 93% | 95% | 90% | 97% | 95% | 89% | 86% | 93% |
| 2022-2023 | 89% | 95% | 98% | 92% | 84% | 100% | 100% | 93% |
| 2023-2024 | 96% | 95% | 96% | 90% | 79% | 100% | 86% | 93% |
| Grand Total | 92% | 94% | 94% | 93% | 84% | 97% | 90% | 93% |

**d) What kind of services we provide:**

- Associate in Science Degree in Emergency Medical Services-Paramedic
- Certification in Emergency Medical Responder.
- Certification in Public Safety-First Aid (Title 22)
- EMT and Paramedic course completion to allow for National Registry testing.

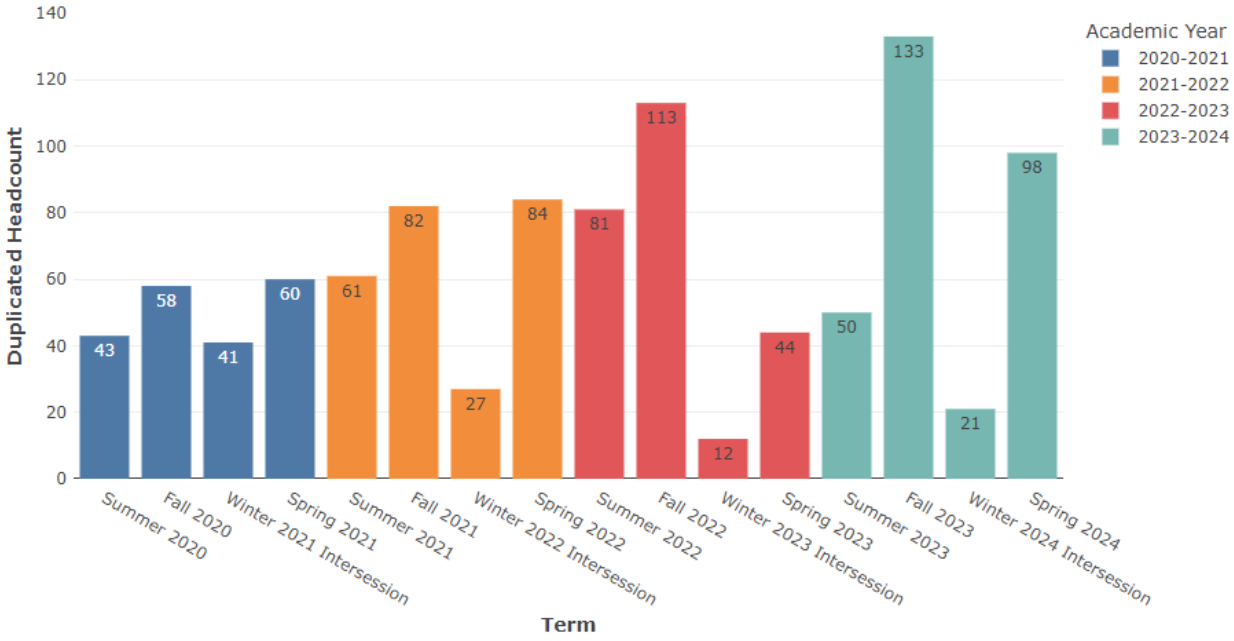
**e) How services are provided:**

- Credit courses- A mix of FT faculty and adjunct faculty offer course offerings.
- FTES analysis of prior four years;
- FTES Data:
- Raw Data: [EMS FTES.xlsx]



Below are student enrollments for Program: EMS

Raw Data: [Enrollments Raw Data EMS.xlsx]



## f) Curriculum Current and needs based:

The Federal Department of Transportation keeps the required curriculum updated. When new curriculum requirements are updated we adjust accordingly. Even though we are in the state of California, we teach the students the national scope of practice which prepares them for the National Registry of EMTs testing, as well as opportunities in other states.

**Course Evaluation Data:**
Per accreditation requirements, student satisfaction surveys are required for Paramedic cohorts, clinical facilities, and instruction. Additionally, surveys by employers of new graduates are required six months after graduation. Furthermore, annual reports are required to be submitted to our accreditation agency with student success rates regarding course completion and National Registry testing.

**g) Class Breakdown:**

- EMS 0950- CPR for the professional Rescuer
- EMS 0951- Advanced Emergency Medical Technician
- EMS 0954- Paramedic 1A- Theory
- EMS 0955- Paramedic 1B- Theory
- EMS 0956- Paramedic II- Clinical
- EMS 0957- Paramedic III- Field Internship
- EMS 0958- Paramedic III- Field Internship Review
- EMS 0958- Paramedic III- Field Internship Review 2
- EMS 1001- Emergency Medical Technician
- EMS 2949- Work Experience
- EMS 9060- Emergency Medical Technician Refresher
- EMS 9065- Emergency Medical Responder
- EMS 9066- Emergency Medical Responder Refresher
- EMS 9080- First Aid for Public Safety Personnel Title 22
- EMS 9081- Advanced First Aid
- EMS 9082- Community First Aid

Degree Applicable

| Subject and Course Number / | Course Title | Unduplicated Headcount | Withdrawal Rate |
|---|---|---|---|
| EMS-0950 | CPR for the Prof. Rescuer | 156 | 0% |
| EMS-0954 | Paramedic IA-Theory | 153 | 0% |
| EMS-0955 | Paramedic IB-Theory | 145 | 0% |
| EMS-0956 | Paramedic II - Clinical | 99 | 0% |
| EMS-0957 | Paramedic III-Field Internship | 98 | 0% |
| EMS-1001 | EMT - Basic | 195 | 0% |
| Grand Total | | 432 | 0% |

## II. External Factors with Significant Impact

### a) Budgetary constraints or opportunities:

Balancing the needs of the community for Emergency Medically trained personnel and balancing the enrollment needs of the College of the Siskiyous, can be a significant challenge. Since the target audience of the entry level classes such as EMR and EMT is typically fire service personnel. In years when California wildfires extend into November it is challenging to fill a class in the Fall semester. The Paramedic program starts in October just to avoid this conflict. The Paramedic Program is one of the more expensive programs within College of the Siskiyous. We are challenged to balance the costs versus benefits to the community and to each prospective student for the opportunity to gain an esteemed profession that can provide tremendous satisfaction and a valuable service to the community. Local agencies within the region depend upon the training of EMT's and Paramedics to maintain their staffing and quality of care. College of the Siskiyous graduates are regarded as some of the best EMS personnel, they are sought for employment by agencies not only in Siskiyou County but throughout the Far North region of California and into Southern Oregon.

### b) Cooperation with other institutions:

Mendocino College is working with us to provide the satellite location for the Paramedic Program. This partnership is in its second year and is very successful, almost doubling the size of our Paramedic Program. Other institutions have reached out to us about doing the same thing and we are evaluating them individually, to not reduce our Weed campus enrollment while expanding the program size.

## III. Progress on Outcomes Assessment:

Overall, program outcomes indicate that most students who enroll complete the courses successfully. Attrition is generally quite low in the Paramedic Program. Changes in staffing and scheduling have helped make the success rate rise.

## IV. Institutional Program Effectiveness Indicators:

Pass rates for the Paramedic Program National Registry tests are most frequently used measures for the Paramedic and EMT programs. Accredited Paramedic Programs track and report outcome measures annually to the Committee on Accreditation for the Emergency Medical Services Professions The graduate success rate on the National Registry of EMT Paramedic Cognitive exam is 92.3% for the 2022 annual report year. The most recent success rate for the National Registry of EMT Paramedic Psychomotor exam is 100%. The positive placement rate for graduates is 92.3% for the 2022 annual report year. Positive placement is defined by the CoAEMSP as 'Employed full or part-time in a related field and/or continuing his/her education and/or serving in the military'. Positive placement is measured at completion of the program. The program retention

including the satellite for the 2022 annual report year was 73.6%. Positive placement is defined by the CoAEMSP as 'Employed full or part-time in a related field and/or continuing his/her education and/or serving in the military'. Positive placement is measured at completion of the program.

## Success and Completion Rates for Program:

Raw Data: Fall Success Rates EMS.xlsx

| Term / Subject and Course Number | Duplicated Headcount | Success Rate | Completion Rate |
|---|---|---|---|
| Fall 2020 | 58 | 76% | 76% |
| Fall 2021 | 82 | 89% | 89% |
| Fall 2022 | 113 | 92% | 92% |
| Fall 2023 | 133 | 95% | 95% |
| Grand Total | 386 | 90% | 90% |

Raw Data: Spring Success Rates EMS.xlsx

| Term / Subject and Course Number | Duplicated Headcount | Success Rate | Completion Rate |
|---|---|---|---|
| Spring 2021 | 60 | 92% | 92% |
| Spring 2022 | 84 | 90% | 90% |
| Spring 2023 | 44 | 84% | 84% |
| Spring 2024 | 98 | 87% | 87% |
| Grand Total | 286 | 88% | 88% |

Raw Data: Summer & Winter Success Rates EMS.xlsx

| Term / Subject and Course Number | Duplicated Headcount | Success Rate | Completion Rate |
|---|---|---|---|
| Summer 2020 | 43 | 100% | 100% |
| Winter 2021 Intersession | 41 | 98% | 98% |
| Summer 2021 | 61 | 100% | 100% |
| Winter 2022 Intersession | 27 | 100% | 100% |
| Summer 2022 | 81 | 99% | 99% |
| Winter 2023 Intersession | 12 | 100% | 100% |
| Summer 2023 | 50 | 100% | 100% |
| Winter 2024 Intersession | 21 | 100% | 100% |
| Grand Total | 336 | 99% | 99% |

## V. Other Unit Specific Quantitative and Qualitative Research.

**N/A**

## VI. Evaluation

a) **Representation of population served;**
There are still underserved populations in relation to the overall demographics of the area. See the individual program reviews for data. In general, the African-American, and Asian population is the most underserved in comparison to county-wide data.

b) **Alternative modes and schedules of delivery:**
   **a.** Canvas augmented classes. Hi fidelity skills/simulation labs.

## VII. Program Vision and Goals:

**a. Partnerships**

i. With our satellite Paramedic Program at Mendocino College, we are abel to enhance our partnerships with agencies associated in that area. This has allowed our students a broader range of opportunities to do internships and employment across California.

**ii.** College of the Siskiyous Paramedic Program has a very dedicated Advisory Committee, which consists of community agencies that support clinical and field instruction and other stakeholders in the community and region.

**iii.** The EMS program contracts with several local hospitals and ambulance agencies for clinical and internship field experience. These agencies have been extremely supportive in helping us succeed.

**b. Staffing needs**

i. The program now has 1 full time faculty, and 1 full time Director assigned to it. The full-time instructor position has been filled for the satellite and this has helped that program grow. There is a need for a full-time faculty position at the Weed campus program and we recommend that it comes before the next cohort in October of 2025. This position should come with release time to assist in the administration of the program allowing for more involvement in the community and the allied agencies.

**c. Equipment**

i. We have been replacing outdated equipment and using various funding sources to replace them. We have even partnered with agencies to receive ambulance and equipment donations.

## VIII. Progress on Prior Goals:

a. We have established the Mendocino satellite program and increased our partnerships in that area.
b. We are starting a bachelor's program in paramedicine in Fall of 2025.

c. We have updated several classroom equipment needs and are continuing to provide the most updated equipment to train out students.

**IX. Four Year-Action Plan and Continuous Quality Improvement.**

**a.** Analysis of equipment needs is ongoing, and we will continue to efficiently improve equipment.

**b.** Continue to grow the programs and offerings.

**c.** Investigate a summer satellite agreement with Shasta College

**d.** Investigate an agreement with Grants Pass AMR to provide video lecture and remote skills training.

.
