COS Music Department
Program Review Document

1. The results of student learning outcomes assessment. Each program review shall incorporate the results of student learning outcome assessment and the ways in which those assessments are being used to maintain or improve the quality of student learning;
2. The Program Review Data Report which is a standard data set provided to every unit by the Office of Research and Assessment. Not later than July 1 of each year the Office of Research and Assessment shall provide to each area member

The Program Review and Data Report will be used in the development of each Program Review.

The following will be included in the Program Review Data Report:

Program / Area Organization: This data will include the names and positions of all staff members assigned to the program / area and to whom they report as well as any costs associated with staff and facilities that are dedicated solely to the program being reviewed.

Describe how your curriculum is up-to-date and needs based:

- Courses listed as being offered in the last four years run each semester and meet the demands of students who major in music, theater, or are lifelong learners. Courses most recently updated include:
    - MUS 1101 - Music Theory I
    - MUS 1601 - Music Theory II
    - MUS 2101 - Music Theory III
    - MUS 2601 - Music Theory IV
    - MUS 1014 - Applied Music - Technique
    - MUS 2523 - Applied Music - Literature
- Additionally, full-time instructors are in the process of updating remaining courses offered in the last four years.
- Online courses will be updated to be a part of the exchange with appropriate badges.
- Music degree requirements are being modified and submitted to the Curriculum Committee.
    - The degree requirements will increase degree rigor while decreasing the number of units required, by eliminating unnecessary courses and prerequisites.

- Primary purpose
    - The Music program at College of the Siskiyous offers degrees, certificates, and coursework in the areas of vocal performance, instrumental performance, and music and theater performance. It provides opportunities in which students develop both the academic and practical skills necessary to prepare for one of the many careers in music; broaden their general knowledge of music; develop performance skills or pursue an advanced degree in music.
    - Degree specific courses offered include music theory, ear training/aural comprehension, piano, and a multitude of instrumental and vocal ensembles focusing on classical, jazz, musical theater, and community music. Additionally, multiple General Education music courses are offered to both music degree, and non-music degree seeking COS students.
    - Program Learning Outcomes (from Course Catalogue) - Upon successful completion of this program, the student should be able to:
        - Demonstrate an awareness of the ways in which people through the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation.
        - Demonstrate the ability to analyze and appreciate works of philosophical, historical, literary, aesthetic, and cultural importance.
        - Demonstrate the ability to play piano at a grade-three level.
        - Analyze works in traditional and non-traditional contexts.
        - Compose or arrange works in traditional and non-traditional contexts.
        - Demonstrate the ability to sing at sight and transcribe at hearing traditional and non-traditional music.
        - In the area of chosen focus, demonstrate proficiency at a comparable level to a student entering upper division coursework.
        - Demonstrate an understanding of the responsibilities of musicianship.

- External Factors with Significant Impact: What external factors have a significant impact on your program? Please include the following as appropriate:
    - Budgetary constraints or opportunities
        - College of the Siskiyous faces similar budget constraints as other Community Colleges, however, they are exacerbated by the low socio-economic status of the region, and consequently, lower tax revenue.
        - Due to a restructuring of department budgets, all music department line items have been zeroed out with the exception of Instructional Supplies and Adjunct/EIA. While CQIPs to restore budgets have been submitted for the 18-19, and 19-20 SY to restore budgets, only one item has any money allocated (equipment repair, inst) with $250.
        - Because of line items being eliminated, there are many opportunities for growth in the budget department. In the meantime, music instructors are minimizing purchases and repairs despite a backlog of needed equipment and instrument/equipment repairs. Additionally, they are programming literature from the public domain and/or selecting literature from the COS Music Department Library.
    - Competition from other institutions

Commented [1]: Describe how your curriculum is up-to-date and needs based. (Base the description on surveys, environmental scan data, transfer patterns, such as GE, IGETC, CSU, AA-T, or AS-T, accreditation standards, and/or articulation agreements. Consider the results of your most recent curriculum reviews in this section).

    - Faculty and Staff - We continue to be at a disadvantage when it comes to faculty and staff. We produce concerts and events that are on par with community colleges of any size and any location across the state. However, there is a cost to the students, faculty, and staff. A review of the data provided in this report suggests that there has been an increase in FTE since the hiring of a second full-time instructor. However, one need only visit websites of other community colleges in California that produce the number and quality of performances that are presented at COS to realize that we as an institution are understaffed. While some would call what we do 'working efficiently, it is typically at the expense of faculty, staff, and student health and well-being.
    - Facilities - With a 50 year old facility, we constantly experience maintenance related issues. Additionally, any infrastructure is antiquated, and any modifications on a building of this age are putting a band-aid on a broken arm. While we are on the Governor's list for a building renovation, we are years away from completion assuming all contingencies are met and construction is approved. In the meantime, Napa College and Folsom Lake College boast recently built $60 million+ Performing Arts Complexes, and Woodland Community College is slated to break ground on a $47 million culinary and performing arts facility. If we expect to compete statewide as a music department, our $27 million renovation is still a far cry from those being installed on campuses around the state.
    - Local Resources - because of our remote location, we are one illness, one injury, and one departure away from having to start over. There is no 'bench' in Siskiyou County. The EIAs we currently use are essentially the only EIAs available. We are fortunate that they are qualified to teach at the collegiate level. However, they are the only ones we have. Any loss in faculty or instructional staff would result in a major modification to the entire program. Additionally, while our community is very supportive in spirit, due to the low socio-economic state of Siskiyou County, the ability to access local tax revenue, find local individuals who can create endowments, and build any kind of meaningful/steady funding streams amplify the impact of internal budget issues.
- Requirements of four-year institutions
    - After an in depth exploration of music degree requirements of four-year California Colleges, the two full-time instructors restructured the local COS AA Degree requirements. By doing this, Music Majors at COS can complete their degree in two years, and the program more accurately reflects the courses and rigor that are expected in a four year college. Additionally, since the most recent Program Review, COS has

implemented the state-wide AA-T Music Degree to enable students to transfer directly to a California State College as a Junior in their area of study. Below is both the restructured local, and transfer degree requirements:

2-year sequence for Music Majors at the College of the Siskiyous

AA-T Degree Core Course Requirements

  - Institutional regulation, policies, standards, and other mandates
    - We are currently aligning SLOs, CLOs, and PLOs within the structure of Guided Pathways. This process is also allowing us to generate a 'suggested course sequence' including GE courses for Music Majors so that students can visualize and plan their path to their degree more clearly.

    - Non-Institutional regulations, policies, standards, and other mandates
        - The music department is following the guidelines set out by the state requiring that in order to offer a site degree, we must also offer the corresponding AA-T degree
    - Job market Requirements of prospective employers Development in the field (both current and future)
        - Developing these items into our future Music Education focused certificates
    - Other
- Progress on Outcomes Assessment
    - Please summarize the progress your unit has made on program and/or course level SLO measures you have applied since your last Program Review
        - See below
    - Please describe any program/course and/or instructional improvements made by your unit as a result of the outcomes assessment process.
        - Mapped SLO's to CLO's and using that data to inform course improvements

Please describe the program's assessment plan for the next four years.

- Institutional Program Effectiveness Indicators:
    - Please discuss your program's performance on each program specific data item provided by the Research Office. If you have already discussed your program's performance on one or more of these components then refer to that response here, rather than repeating it.
        - Use the data provided by the Research Office to discuss your current Course Completion Rate and then set a Course Completion Rate goal for your future program review cycle.

        - For this, we are using retention data. In 2015, when there was only one full time music instructor, retention was as low as 78%. Since then, retention has increased to as much as 93% and is consistently higher. Our goal is to keep retention between 85% and 95% for the next four years.
    - Use the data provided by the Research Office to discuss your current Course Success Rate and then set a Course Success Rate goal for your future Program Review cycle.
        - Over the past four years, the success rate has fluctuated between 80 and 90%. While it would be nice to raise all of these percentages, our goal for the next four years is to bring the lower end up a bit so that we don't have a semester below 85%.
    - Use the data provided by the Research Office to discuss your FT/PT Faculty Ratio and how it is impacting your program and/or student success.
        - In the 2015-16 SY there was only one full-time music instructor, with multiple adjunct instructors covering classes. In the 2016-17 SY an interim full time instructor was hired, which brought some stability. In the 2017-18 SY a full time tenure track music instructor was hired, creating greater stability and trust within the community. Over the course of the past four years, total music students enrolled grew from **472 in fall 2015/spring 2016 to 615 in fall 2018/spring 2019, generating an increase of 143 students enrolled in music classes over the course of those years**.
- Other Unit-Specific Quantitative and Qualitative Research: Please provide….
    - A list of any quantitative or qualitative measures not provided in the previous questions that you have chosen to gauge your program's effectiveness (e.g., transfers, degrees, certificates, satisfaction, student contacts, student headcount, Perkin's data, equity data, etc.)
    - A summary of the results of these measures.
    - What did you learn from your evaluation of these measures, and what improvements have you implemented or do you plan to implement as a result of your analysis of these measures?
- Evaluation: Based upon and not repeating the descriptions you provided in Question 1 and the responses provided in Questions 2 – 5, please provide an analysis of what is going well and why and what is not going well and why, in any of the following areas that are relevant to your program:

In an effort to reestablish a strong connection with the community, and to stabilize the music department after a long period of instability, the COS music department has made great strides in

rebuilding its presence as an integral part of the greater community. This has been accomplished through engagement and course offerings. COS Music Department has strived to offer courses in a wide variety of formats as well as concert/workshops/clinics/events in various locations across Siskiyou County. We have offered our bi-annual Concert Band/Choirs & Jazz Ensembles concerts in both Weed and Yreka along with performances Mt Shasta, Grenada, Etna, Dunsmuir, and McCloud. COS has created and hosted the Siskiyou County Choral Festivalfor for the 4th year which draws 300-400 choir students (Grades 4-12). We have also offered our non-music major general education course (Music Appreciation, Survey of Jazz and Popular Music, Diversity in American Music) in face-to-face, hybrid, fully online modalities. We have collaborated with COS Athletics, COS Theater, COS Visual Arts, COS ASB, COS Guidance and Counselling, Department Yreka High School, Mt Shasta High School, Sisson School, Weed Elementary & High School, McCloud Elementary, on productions, Butteville Elementary, Jackson Street Elementary, Gazelle Elementary, City of Mt Shasta, Music Mountain, Red Scarf Society, collaborative work with church choirs throughout the county on events, and concerts.

The music faculty serve on COS committees which include: Academic Senate, Faculty Union, Distance Learning Committee, Flex Committee, Creative Spark, International Committee, Mexico Exchange Committee, Foundation Board, Enrollment Management, Diversity Committee, various hiring committees and tenure committees, faculty evaluation, graduation planning, Ford 50th Anniversary Celebration Committee, and COS 8th grade day. Due to the small faculty size (and degree requirements) we also heavily rely on EIA's for our ensembles, musical production, applied music courses. Without these highly trained individuals we could not impact such a wide variety of courses and events at COS. But we still struggle with a budget that does not reflect our department's unique offerings on campus. We look forward to the potential COS Ford Theater/McCloud Hall construction project being funded. With these facility/technology upgrades along with a central building shared space with Visual arts we can see new potentially creative collaborations which will help create a stronger campus community with traditional and life-long learners.

- Vision. Tell us your unit's vision: Where would you like your program to be four years from now? Dream big while considering any upcoming changes (e.g., new buildings, labs, growth, changes in the discipline, etc.)

Our goal in the next four years is to develop pathways for music/music theater/theater education majors. We hope to involve our students in undergraduate research, practicum experiences, leading community music events. We also strive to create skill's certificates in areas of Private Instruction, Piano, Band, Jazz, Choir, Chamber Music, Vocal Jazz, composition/arranging, community music, music education, music therapy and music technology. We also want to expand our K-12 festival opportunities on campus matching the success of the Siskiyou Choral Festival. Other areas of growth would be recruiting trips with COS Vocal Music, Instrumental

Music, and Theater departments. We are also creating degree pathways through the guided pathways model. We will continue with our success of a community collaboration concert and plan to program it every year. For a more in depth of this vision, see below:

- Progress on Prior Goals: Briefly summarize any progress your unit has made in meeting the goals and objectives identified in the program's last Four-Year Action Plan.
    - We do not have access to the past Four-Year Action Plan. Both full-time music instructors were not employees during this past plan.
- Four Year-Action Plan and Continuous Quality Improvement Proposal (Goals, Objectives, Resources, and Actions): Reflect on your responses to all the previous questions. Write a Four-Year Action Plan, entering the specific program goals you have formulated to maintain or enhance your strengths, or to address identified challenges. In writing your objectives and developing your resource requests, consider student learning and program assessment results. Assign an overall priority to each goal and each objective. In addition, enter any actions and/or resources required to achieve each objective. Then complete a CQIP for each new budget allocation request.

As has been demonstrated throughout this program review, great strides have been made to establish consistency in instruction, performance, assessment, and growth. Increased enrollment, better retention and student success, intentional outreach, as well as having two full-time instructors, has led to an increase in stability and quality throughout the program. Dialogue between the two full time instructors has led to a vision including new ensembles, certificate programs, articulation agreements with four-year institutions, and a more vibrant, energetic, and dynamic music department.

Moving forward, over the next four years, the intent is to enact the goals set out in the outline shown in pages 100-101. In addition, we need to identify, and secure quality EIAs to provide instruction for music majors beyond solely vocal majors, we need to secure a full-time staff accompanist/instructor to be shared between the music and theatre departments, and we need to re-establish budgets that have been zeroed out in order to serve our students in a meaningful and relevant way, that is competitive with other Community College music programs throughout the California as well as the southern region of Oregon. The last four years were spent building a

strong foundation, now we can continue creating a student centered, transfer/career/lifelong learning focused program that enhances the lives of all who are a part of the COS community.
