Comprehensive Program Review Two-Year Cycle
LVN-RN Step Up Program
Rhonda Brown, Assistant Director, Faculty
Hallie Coppi, Faculty
Kim Parham, Faculty
Cora Brownell, Director
December 2018

I. Description of the Program

The LVN-RN Step-up Program is designed as an accelerated course for the LVN with a license in good standing to earn an Associate's Degree in Nursing and be eligible to sit for the National RN exam.

The conceptual framework is based on the nursing process. The nursing process allows for and supports application and utilization of knowledge from the biological, natural and social sciences with appreciation and respect for individuals, families, and communities from all cultural, religious, and social backgrounds. It provides a framework for systematic nursing practice in a variety of settings for a diverse patient population across the life span.
The nursing program courses are sequential and build on previously acquired knowledge and skills. Overriding all student experiences, the ability to think critically is emphasized. Critical thinking is imperative in all aspects of client care; providing a safe patient environment, priority setting, determining appropriate interventions based on scope of practice, and delegating.
Within the curriculum conceptual framework of the nursing process, four concepts provide additional foundational underpinnings; pathophysiology, growth and development, pharmacology, and QSEN (knowledge, skills, and attitudes in the 6 domains of patient centered care, teamwork and collaboration, evidence- based practice, quality improvement, safety, and informatics). As content areas are discussed, the four concepts are integrated.
Finally, threads, or topics in nursing integral to nursing knowledge and practice, are leveled in the courses. The 7 threads are nutrition, legal/ethical, cultural awareness, teaching/learning, advocacy, leadership/professionalism, and communication.

a) Organization

Director of Nursing- ***Cora Brownell MSN, RN***

Assistant Director-*Rhonda Brown MSN, RN*	**Assistant Director-*Jane Shelby MSN, RN***

Instructor (FT)- *Rhonda Brown MSN, RN* Community-Mental Health Nursing Transitions BRN approved Content Expert Psychiatric/Mental Health, Geriatrics	**Instructor (FT)- *Kim Parham MSN, RN*** Intermediate/Advanced Medical -Surgical Nursing Transitions BRN approved Content Expert Medical-Surgical	**Instructor (FT)- *Hallie Coppi MSN, RN*** Clinical Simulation All NURS courses NURS1021, 1031,1032, 1541, 1542.

Instructor (A)- ***Jane Shelby MSN, RN*** Maternal-Child Nursing BRN approved Content Expert Maternal/Child	**Instructor (A)-** ***Pam Remley MSN, RN*** Maternal-Child Nursing

Clinical Instructor- ***Rhonda Brown MSN, RN*** Community-Mental Health Nursing **Jacklyn Castellanos BSN, RN (A)** Community-Mental Health Nursing	**Clinical Instructor-** ***Kim Parham MSN, RN*** Intermediate/Advanced Medical -Surgical Nursing ***Petra Chase MSN, RN*** **(A)** Intermediate Medical - Surgical Nursing ***Debbie Laya MSN, RN*** **(A)** Advanced Medical -Surgical Nursing	**Clinical Instructor-*Tricia Bravo BSN, RN* (A)** Maternal-Child Nursing **Jacklyn Castellanos BSN, RN (A)** Maternal-Child Nursing

b) Primary purpose

Graduate a competent entry-level graduate-RN nurse qualified to pass the NCLEX licensing exam and practice in a safe and effective novice role.
The faculty believe that nursing is both a profession and a discipline guided by professional standards and ethics that is responsive to the changing health needs of patients, families, and communities. Nursing promotes, maintains, or restores wellness and prevents disease. Nursing faculty also believe nursing is both an art and a science and requires critical thinking, synthesizing knowledge while providing competency-based skills with proficiency. Further, the nursing faculty endorse the 6 domains of QSEN and believe the principles should inform nursing education with particular attention to patient centered care, safety, and collaboration.
The faculty, acknowledging the dynamic nature of nursing, is committed to integrating evidenced based concepts and practices into the educational process and instilling the importance of currency, lifelong learning, and collaborative, patient centered care to achieve positive patient outcomes.
Students assume primary responsibility for their own learning while faculty provides educational opportunities for knowledge acquisition and professional role development. The student is considered and expected to be an active participant in the educational experience.
The faculty view each student as a unique individual with special abilities, talents, needs, and goals. Cultural diversity, varying life experiences, and changing socioeconomic factors affect each student differently. The faculty function as role model, coach, motivator, facilitator, and resources in the learning process by providing direction for learning and growth as a health care provider. Adult learning principles are the basis for teaching.

c) Whom we serve include demographics
The program serves the local community of Siskiyou County, neighboring counties of Shasta, and Lassen. Additionally, Jackson and Josephine, Oregon counties utilize our

program. The program is one of seven statewide, therefore other California county residents have participated in our program. Several examples are San Francisco, Fresno, and San diego counties.

F17-SU1	Count of Student Gender

White	19
Grand Total	**28**

d) What kind of services we provide:

- Pre-Admission Testing- Test of Essential Academic Skills (TEAS) required for application to the program.
- Algebra and APA writing skills remediation.
- California Board of Registered Nursing (BRN) approved curriculum. The curriculum includes theory/ clinical/ skills lab/ simulation/remediation in core nursing content. Core nursing content includes Medical/Surgical, Community/Mental Health, and Maternal/Child Nursing care.
- Assessment Technologies Institute (ATI), a National Council Licensure Examination (NCLEX) vendor that provides NCLEX preparedness tutorials, quiz banks, practice tests, and proctored tests in all areas of NCLEX content areas of testing.
- Degrees Awarded

Year	AS/ADN
2015	29
2016	29
2017	30
2018	27

e) How services are provided:

- Degree applicable courses- A mix of FT faculty and adjunct faculty offer full-time credit course offerings according to program sequencing.
- FTES analysis of prior two years; 2016-17 = 143.88, 2017-18 = 126.96

f) Curriculum Current and needs based:

Curriculum revision for all courses was completed and approved by Board of Registered Nursing May 2017. Implemented Fall 2018. New curriculum incorporated contemporary nursing education concepts as set forth by industry educational, accreditation, and national testing bodies.
AS-T articulation agreement with CSU Chico for BSN. See plan below.

College of the Siskiyous – California State University Chico, ADN-BSN

To complete the Bachelor of Science Degree in Nursing (BSN) from CSU, Chico beginning your first semester at College of the Siskiyous LVN to RN Program.

	Complete These Courses at College of the Siskiyous		Units	√ ADN (COS Req.)	√ BSN (CSU, Chico Req.)	COS GE Area	CSU GE Area
Prerequisites, Co-Requisites, & GE Requirements	**College Composition**	ENGL 1001	3	√ Prereq.	√ Prereq.	A	A2
	Microbiology	BIO 2600	4	√ Prereq.	√ Prereq.	C	B3
	Human Anatomy	BIO 2700	4	√ Prereq	√ Prereq.	C	B2
	Human Physiology	BIO 2800	5	√ Prereq.	√ Prereq.	C	B2
	Sociology	SOC 1001 or 1002	3	√ GE	GE	E	D1
	Psychology	PSY 1001	3	√ GE	GE	E	D2
	Communication Studies	COMS 1100, 1200 or 1300	3	√ GE	√ Prereq.	F	A1
	Elementary Statistics	MATH 1050	4		√ Prereq.	B	A4

	Chemistry with Lab	CHEM 1000, 1100, or 2000	5		√ Prereq	C	B1
	Critical Thinking	ENGL 1502, PHIL 1004, or PHYS 1020	3		√ Prereq.	F	A3
	Learning for Life	Rec. ECE 1002, 1999, or FCS 1011	3		GE	E, G3	E
	Arts & Humanities – See Catalog. Complete one non-HIST class from IGETC Area 3 for COS.		3	√	GE	D	C1 or C2
	Arts & Humanities – Need one class in either Arts or Humanities; whichever not completed above; both a C1 & a C2 course are required by CSUC		3		GE	D	C1 or C2
	US History	HIST 1017 or 1018	3		√ GE	E	
	Political Science (Local, State & Natl. Gov.)	POLS 1001	3		√ GE Req.	E	
	Electives – Any non-nursing CSU transferrable course(s); Recommend CSU GE area D2 or E courses		2 – 9.5				
	CSU GE/Graduation Requirements in addition to prerequisites & co-requisites. **Need 70 units minus the transferrable nursing units (8.5-16 units – see next page for**		**54 – 61.5**				

Completion of an ADN degree does not guarantee admission to a CSU campus. Classes are subject to change.

	Complete These Courses at College of the Siskiyous	Units	√ ADN (COS Req.)	√ BSN (CSU, Chico Req.)	COS GE Area	CSU GE Area
COS Lower Division Nursing Courses	NURS 1021 – Role Transition	3	√			
	NURS 1031 – Community Mental Health Nursing	5.5	√			
	NURS 1032 – Intermediate Medical Surgical Nursing	6.5	√			
	NURS 1541 – Advanced Maternal Child Nursing	4.5	√			
	NURS 1542 – Advanced Medical-Surgical Nursing	7.5	√			
	NURS 2929 – Special Studies	1-2	√			
	NURS 2949 – Work Experience	.5-8	√			
	COS Nursing Total	**28.5 – 37**	Note: 20 of these units must be saved for use in the RN to BSN Program.			

Maximum of 70 units may be transferred to Chico State.

20 transferrable Nursing units are needed over and above the 70 units transferred to Chico State and will be used as 20 units of NCLEX credit, issued in the final semester of the RN to BSN Program.

The remaining 8.5-16 transferrable Nursing units can count towards the 70 units transferred in to CSUC

The following COS Nursing units are transferrable: NURS 1045 Medical Terminology (3), NURS 1047 Career Pathways in Health I (2), and NURS 1048 Career Pathways in Health II (1.5) .

*Note: Some LVN Programs (such as Butte College) have transferrable to CSU nursing units – look at the catalog where your LVN courses were taken – if they are transferrable, up to a total of 16 nursing units can be used in transfer and the units needed on page 1 would be reduced to 54.

Prerequisites:

1. Must be eligible for admission to the University.
2. Eligibility for admission to the RN to BSN Nursing major:
   - Graduation from an associate degree program in nursing (can be in final semester).
   - 54 transferrable non-nursing units (GE certification courses, Nursing prerequisites & co-requisites).
   - Completion of CSU, Chico lower division GE requirements.
   - Completion of all CSU, Chico Nursing prerequisite courses (Anatomy, Physiology, Microbiology, Chemistry, Oral Communication, Written Communication, Critical Thinking, & Statistics) with minimum “C” grade.
   - Cumulative GPA of 3.0 (will accept most recent 60 units); 3.0 in Nursing is required to apply before graduation
   - Must be accepted into the RN to BSN Program by the School of Nursing before applying to CSU, Chico.

	Complete these courses at CSU, Chico	Units	√ BSN Req.	CSU GE Area
Upper Division GE	RELS 332 – World Religions & Global Issues Included in the RN to BSN Curriculum (may be taken prior to the program, but must be taken at CSU, Chico). Waived for those with a previous Bachelor's Degree.	3	√	Upper Division GE Global Cultures
	MCGS 310 – LGBTQ Issues & Identities Included in the RN to BSN Curriculum (may be taken prior to the program, but must be taken at CSU, Chico). Waived for those with a previous Bachelor's Degree.	3	√	Upper Division GE US Diversity
	NURS 477 – Public Health Nursing Theory* **Meets Upper Division Science Requirement; it is part of the RN to BSN Curriculum & must be taken in sequence with other RN to BSN Nursing Courses*		√	Upper Division GE Science
	Upper Division Writing Requirement is met by NURS 420W		√	
	Total Upper Division GE	6		

Transfer to CSU, Chico

	Complete Nursing courses at CSU, Chico	Units	√ BSN	CSU GE Area
Required RN-BSN Courses	NURS 300W – RN to BSN Bridge Course	4	√	
	NURS 310 – Academic Writing for Nurses	2	√	
	NURS 316 – Nursing Informatics	3	√	
	NURS 342 – Nursing Research	3	√

II. External Factors with Significant Impact

a) Budgetary constraints or opportunities: The Enrollment Growth Grant provides funding for purchase and maintenance of Simulation and Skills Lab equipment and software for smart mannequins and
control room, disposable practice supplies for students, subscription fees for DocuCare, an electronic health care record system, salaries, continuing education expenses for faculty and staff.

b) Competition from other institutions: None. We are one of seven statewide LVN-RN Step Up programs.

c) Requirements for four -year institutions: ADN degree and RN license in good standing. Chico State University transfer agreement, see complete pathway above. Many on-line universities will accept our degree in conjunction with an RN license in good standing such as Western Governors University.

d) Institutional regulation, policies, standards, and other mandates:

- BRN faculty minimum requirements impact our ability to hire qualified instructors. The frontier county of Siskiyou has a shortage of BSN and MSN prepared nurses. Many of our instructors live in Shasta county. This is helpful for Shasta county clinical sites.

- Faculty Association and Administrative policies regarding non-instructional time. The BRN mandates new faculty orientation to clinical sites and clinical expert time for curriculum review. The issue of compensation for this required time remains in negotiations at the level of the Faculty Association and Administration.
  It's difficult to recruit and retain qualified nurses working in industry due to lack of compensated time for orientation.
- Clinical sites located as far as Sacramento, CA. In order to meet BRN requirements for clinical rigor, our students and faculty have to drive great distances to meet this requirement.
- The overall salary compensation column model does not reflect the continuing education requirements of the BRN and Nursing Specialty Certification Boards. For example, this writers AACN Psychiatric-Mental Health Nurse Board Certification Credential requires 100 continuing education hours (CE) every 5 years. Any content expert in the nursing program has an advanced credential to qualify. The program requires content experts in all five areas of core instruction. The BRN mandates 30 CE's every two years. An equivalency for this mandated education and additional college courses per the step process would be equitable.

e) Non-Institutional regulation, policies, standards, and other mandates:

- Clinical facility sites impact students/ faculty with varying policies and mandates. This requires extra time to meet, verify, and track all applicable policies and mandates.
- Clinical site partners do not charge fees for our students practicing in their facilities.

f) Job market

- **Requirements of prospective employers:** ADN degree and RN license in good standing. BSN preferred. Preceptorship or work experience preferred.
- **Development in field:** Concurrent industry goal of 80% of RN's in workforce have BSN degree by 2020. Current benchmark not on target nationally. The goal will remain in effect with the goal end date extended. The highest regarded obstacle is a lack of Mastered prepared Nurse Educators to meet enrollment needs.

III. Progress on Outcomes Assessment:

Program Outcomes

a) Program Outcomes:

RN Program Outcomes

At completion of the program the student will:

1. Demonstrates a broad base of nursing and supportive (physical, psychological, social, spiritual) knowledge and critical thinking while providing culturally aware, evidenced based, safe, patient centered care to a diverse patient population across the life span.

<u>Outcome met as evidenced by program completion and NCLEX pass rate.</u>

2. Utilize critical thinking and the nursing process in developing and implementing evidence-based patient plan of care, including teaching, to provide safe, quality, and comprehensive nursing care.

Outcome met as evidenced by program completion and NCLEX pass rate.

3. Demonstrate proficiency and competency when performing nursing skills and procedures, integrating QSEN concepts, to achieve positive patient outcomes.

Outcome met as evidenced by program completion and NCLEX pass rate.

4. Demonstrate and provide care consistent with scope of practice, legal, ethical and advocacy principles, and regulatory and organizational requirement to achieve positive patient outcomes.

Outcome met as evidenced by program completion and NCLEX pass rate.

5. Demonstrate communication and technology skills essential for providing and documenting safe patient care.

Outcome met as evidenced by program completion and NCLEX pass rate.

6. Function effectively as a team member/leader incorporating knowledge of healthcare team member roles and participate collaboratively, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care and positive patient outcomes.

Outcome met as evidenced by program completion and NCLEX pass rate.

7. Demonstrates professionalism, leadership skills, integrity, and accountability in nursing practice, and verbalize understanding of importance of lifelong learning to maintain standards of competent performance.

Outcome met as evidenced by program completion and NCLEX pass rate.

SLO Assessment Initialization Year 2018-19:

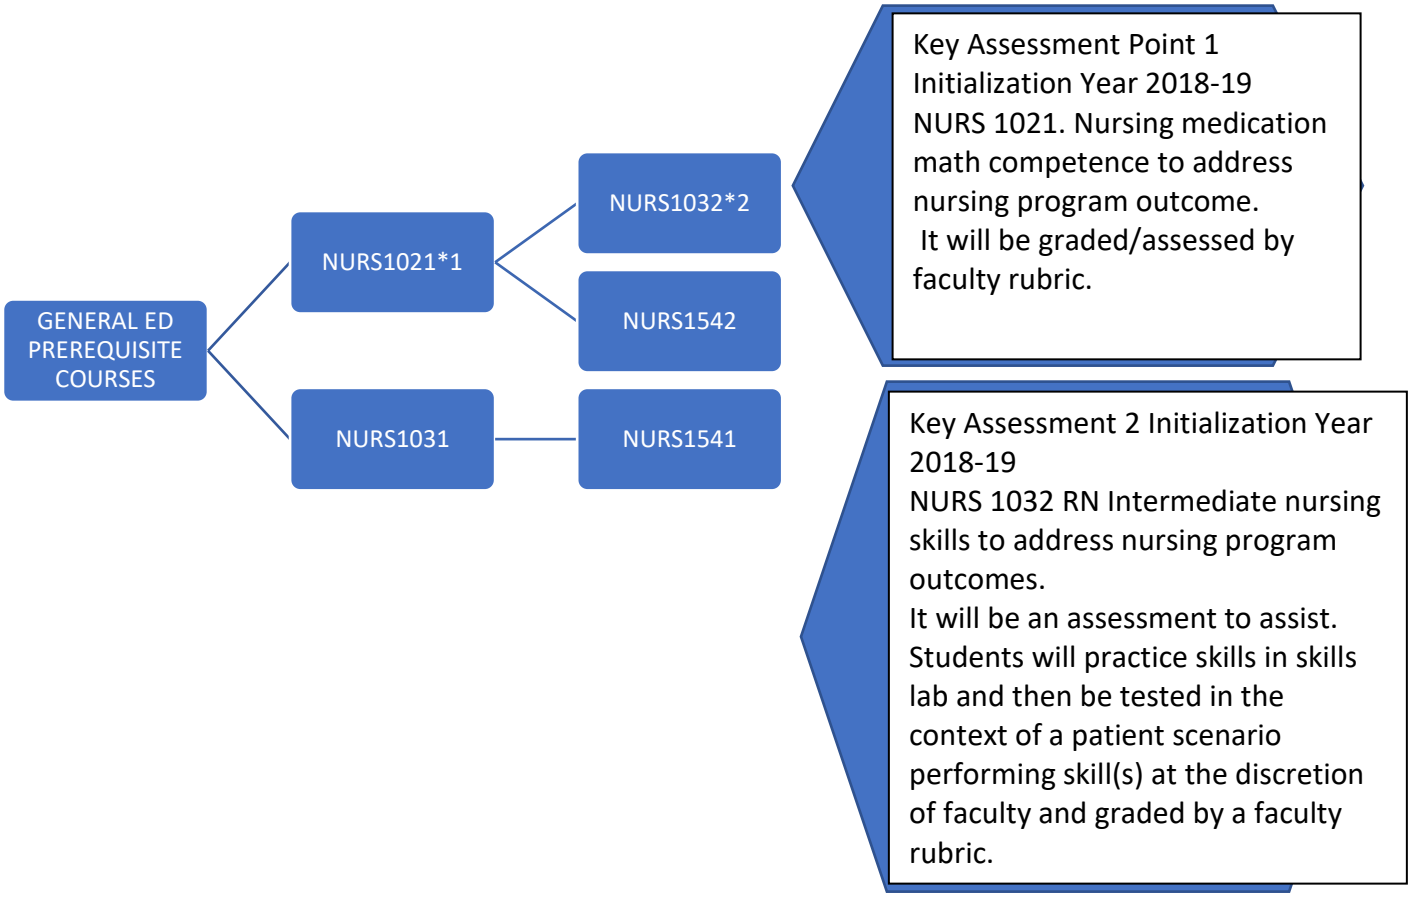
Student will formulate and create nursing care plans emphasizing the high acuity patient.	9. Understand and differentiate the advanced preparation of the critical care nurse. 10. Describe the role and functions of the critical care and emergency department nurse.

LVN-RN STEP-UP PROGRAM
INITIALIZATION YEAR 2018-19
PROGRAM MAP



Program's assessment plan for next two years:

Year	**Task on Planning Day at beginning of year**	**Task on Planning Day at end of year**
Year 1 (2019-2020)	**Finalize 1st key assessment**	**Analyze results of 1st key assessment**
Year 2 (2020-2021)	**Finalize 1st key assessment**	**Analyze results of 1st key assessment**

III. Institutional Program Effectiveness Indicators:
SEE GRAPH UNDER I(g).

c.) FT/PT Faculty Ratio/Impact on Student Success: Due to the compressed calendar, the program has had to condense lecture material, thus forcing more self-responsibility on the student for class preparation and study. Typically, the first semester is a challenge for students taking two separate nursing courses concurrently. The LVN course involves one intensive course each semester. The part time clinical faculty are not always committed to review the theory and relate it to clinical time. This may impact possible remediation opportunities.
The data shows the student/faculty ratios are adequate for success.

IV. Other Unit-Specific Quantitative/Qualitative Research

a) Transfers, degrees, certificates, satisfaction, student contacts, Perkins data, equity data
During the review period of 2015 to 2018, 112 Associate in Science degrees were awarded to graduates of the LVN to RN Step-up Program:

LVN-RN Step-up - Associate in Science	112
2015	29
2016	28
2017	30
2018	25

Equity information and data is addressed in Section I c) of this review. Demographics are not reflective of the county population. Few minorities are represented in the LVN to RN Nursing Program. Students with English as a second language enroll, but the success rate for them is 50 to 75%, depending upon the academic year. English as a second language remains one of the most prominent factors leading to unsuccessful outcome for any student.
Contacts with students are frequent and consistent throughout the students' application and participation in the program. About 6 months after graduation, students receive a 28 question survey which asks input on specifics regarding employment, preparation for employment, and input on the preparation that the program provided for NCLEX and employment. At around the same period of time, COS Nursing solicits input from employers of program graduates on the preparation and performance of the graduates.
A Road Map to CSU Chico offers opportunity for COS LVN to RN graduates to obtain a BSN in approximately 14 months. Every late fall to early spring, the Nursing Program hosts an information session for the students with the CSU Chico Nursing Department Liaison, who explains the process and offers the students support in the enrollment into the CSU program. CSU reserves slots for graduates of Far North regional ADN programs, and some of those slots are not always filled.
The most prevalently used measure for successful outcomes in Nursing pre-licensure education is the NCLEX pass rate. While students are encouraged to take the NCLEX as soon as possible after graduation, some graduates delay testing. As a result, annual pass rates are not consistently reflective of success within an academic year. COS Nursing NCLEX-RN pass rates for this review period are: 97.62, 95.83, 93.1, and 89.41 percent for the 4-year review period. The LVN to RN program received the Chancellor's Office Gold Star award for high rates of employment and NCLEX performance in 2017 year. The admission process for the

program has ended up with a wait list ranked by points. As the list grew, cohorts became more homogenous with less variation in attributes. The cohorts for the last two years of this review period tended to be filled with applicants ranking lower on the admission rubric scale.

b) **Summary of results of these measures**
The retention rate of students enrolled is consistently high, and overall success rate is also high as reflected by NCLEX and employment data. This reflects upon the diligence in admissions, instruction, and student performance. Overall, the program is quite successful in these areas. The lack of minority representation and the lower success of ESL students require further attention, and focus. Although advancement is offered for advancement to the BSN, this opportunity is not well taken advantage of by COS graduates. Most graduates do not immediately transfer to a BSN program. The ranked wait list now has too many applicants to allow for cohorts with a mix of attributes, leading to cohorts that are consistently lower in academic proficiency with no more proficient classmates to infuse the group with incentive and tactics for improvement. The last two cohorts were more homogenous in the lower ranking students, and NCLEX pass rates declined during the last two years.

c) **What did you learn from the evaluation of these measures, what improvements have you implemented or plan to implement?**
At this time, COS Nursing is participating on a statewide level with other pre-licensure nursing programs to find best solutions within the constantly changing world of Nursing Education. The imperative to produce more BSN level graduates has driven a current project to develop concurrent ADN and BSN programs patterned off of some currently developed and used in other states such as Arizona and Kansas. As of the admissions for 2019-20 cohort, the waitlist will be discontinued, and applicants that are not admitted can reapply and gain points for higher ranking on their subsequent applications. The process is expected to focus on applicants with a high potential for success while mixed with those with those that ranked lower. This process is expected to be inclusive as it matures through the next several years. While higher ranking applicants do well in academic components, many lower ranking applicants appear to have more developed inter-personal and reflective skills in the direct care setting. The mix of abilities is the goal for the most successful cohort, which providing opportunity for all who meet the qualifying standards.

V. Evaluation

a) **Representativeness of population served:** See I (e), reviews in section IV. In summary, the enrollment in the COS LVN-RN Program does not represent the population served. Outreach to threshold minority populations of Hispanic, African American, and Native American prospective nursing students is needed.
b) **Alternative modes and schedules of delivery:** Canvas augmented classes, Electronic medical record system, Hi fidelity simulation lab
c) **Partnerships** COMMUNITY CLINICAL SITES; RestPadd-Red Bluff, Shasta Regional Medical Center, Vibra Hospital, Fairchild Medical Center, Dignity-Mt. Shasta, Madrone Hospice, Mercy Hospice, Siskiyou County Behavioral Health, Siskiyou County Jail, Siskiyou County Public Health, Siskiyou County Department of Education, Siskiyou Home Health, Fall River Hospital, Shriners Hospital.
d) **Innovation and Implementation of best practices:** Full fidelity manikins for medical surgical and obstetrics clinical simulations. Current faculty meet the standards of BRN required content experts, who infuse the instruction and curriculum with updates and latest practices.

e) **Efficiency in operations:** Reduction of costs is currently a high priority. One effort is the piloting of moving NURS 1021from summer to spring session (2019) in order to decrease salary costs for nursing budget. Historically the course was taught in the summer by faculty at the adjunct rate. Three of the four full time faculty members have a MSN and can teach across all curriculums, leading to cost-effective flexibility in assignements.

f) **Efficiency in resource use:** The use of Canvas has decreased the use of paper for student assignments, schedules, and other items previously copied. We continue to evaluate resource allocation whether it be staffing or supplies to improve the nursing budget.

g) **Staffing**

COURSE	ADJUNCT	FULL TIME	GRAND TOTALS
201470 TOTALS			**6**
NURS 1031	2	1	3
NURS1032	2	1	3
201530 TOTALS			**6**
NURS 1541	3	1	4
NURS 1542	1	1	2

201550 TOTALS			**5**
NURS 1021	4	1	5
201570 TOTALS			**7**
NURS 1031	2	1	3
NURS 1032	3	1	4
201630 TOTALS			**8**
NURS 1541	3	1	4
NURS 1542	3	1	4
201650 TOTALS			**4**
NURS1021	3	1	4
201670 TOTALS			**4**
NURS1031	0	1	1
NURS1032	2	1	3
201730 TOTALS			**6**
NURS1541	2	1	3
NURS 1542	2	1	3
201750 TOTALS			**4**
NURS1021	3	1	4
			5
201770 TOTALS			
NURS 1031	0	1	1
NURS 1032	3	1	4
201830 TOTALS			**9**
NURS 1541	4	1	5

NURS1542	3	1	4
201850 TOTALS			**5**
NURS 1021	4	1	5

Participation in shared governance:

h) **Professional development and training:** All full-time faculty meet Flex obligations. Nursing Director provides current educational in-house in services and trainings for all faculty development. Faculty are afforded additional out of town trainings on such topics as NCLEX testing, Conceptual Curriculum development.

i) **Compliance with applicable mandates:** All faculty comply with BRN licensing CPR, and immunization requirements as specified by the college and the clinical agencies under contract to host student clinical experience and instruction.

VI. Vision

Continue to offer an excellent ADN nursing program to meet the needs of our community and partners.

VII. Progress on Prior Goals: The new LVN-RN Step-Up Program curriculum was launched in 2017-18. The program was re-evaluated in summer 2018 and appropriate changes were made to meet the need of the students and to keep current with trends and evidenced-based best practice standards.

VIII. Two-year Action Plan:

- Continue to deliver a quality rigorous academic and clinical nursing program to produce excellent new RN graduate nurses.
- Educate all faculty on the Next Gen NCLEX testing plan and adapt curriculum and teaching delivery methods to deliver a minimum 90% pass rate on the updated testing plan.
- Continue to evaluate students' needs and nursing budget dollar allocation for continued student success.

We the undersigned certify that the LVN-RN Step-Up Program, program review process included broad dialogue about student learning, program effectiveness and resource allocation.
